> > =In response to a post card invitation sent by Secretary C. Burnside Seagraves of the Middlesex Sportsman's Asso'n, there were one hundred and twenty-five members and friends present at an "experience meeting" on Monday evening, at the unique building "YouSay," on Mystic street. Mr. Freeman N. Young was the host of the evening and placed "You-Say" completely at the disposal of a most genial company of gentlemen. It was Mr. Young's birthday and he took this means of celebrating, for he is altogether too generous and jolly to want to celebrate by himself. Mr. Seagraves worded his postal of notification so wittily that no one dared to stay for fear of what they might miss. There were camp tales to swap and reminiscences galore, besides the amusement to be found at Mr. Young's recreation quarters. There was the pool table, the graphopone, many curiosities to inspect, and a seat by a great blazing fire. The banquet was served on both floors of "YouSay" and only those not present have anything to regret.

Concert and Recital.

The Crosby School Association of Arlington was organized for the purpose of arousing and maintaining interest among all the people of the Crosby school district in the work of the Crosby school, and especially in the Summer School and the playground work of the school. It is also the purpose of the organization to bring the people of the district into more intimate civie and social relations through of age and shows marked musical ability. the school and the school work. To this end four entertainments have been planned for the months of January, February, March and April of the present year, the proceeds of which are to go toward the "Summer School Work" and the large playground which it is hoped to secure for the school.

The first of this series of entertainments was given in Town Hall, Arlington, Tuesday evening of this week, under the direc-F. Palmer Spear, at the last meeting of tion of an entertainment committee comthe Arlington Woman's Club, will be posed of A. J. Philpott, Thos. E. Freefound on the editorial page. OCEAN DERELICTS.

Floating Perils That Drift With Winds and Currents.

A MENACE TO EVERY VESSEL.

These Vampires of the Sea, Some of Them Wholly Submerged, Are Dreaded by All Mariners-Methods of Locating and Destroying Them,

Today, according to Popular Electricity, there are about 2,000 derelicts in the waters of the world-floating perfis that go where wind and currents bid them. Every sea is made hazardous by their presence. They have crashed into ocean liners and into junks of the China sea. To them all vessels are alike something to be destroyed. They crash against them in the dead of night, when inky blackness hides their coming. Wrecks themselves, they seem to strive to drag all others to their own fate.

So they go drifting on the seven seas. More particularly they seem to swarm eagerly in the gulf stream.

From Cape Hatteras reaching north to the Grand banks of Newfoundland is the "graveyard of the Atlantic." It is a rolling waste where many ships are buried. It is a place where derelicts borne by the sweep of the gulf stream and the counterchurn of the Labrador current dart about like angry sharks, eager to fasten their maws on the hull of some ship.

in the hydrographic office at some seaport the wireless is sounding. A message is coming through the void. It is a message of peril coming from a steamship. It warns that a derelict has been sighted squarely in the path of ocean travel. For days the men at the station have been waiting for word of this derelict. Its position on the chart that all hydrographic offices keep has not moved for a week. They have lost track of it. Its driftings are as a mystery. The station men have been unable to wire back over the seas warning captains of its whereabouts. Any moment they may hear that it has attacked and wrecked.

But now the derelict has come into the light. The Baltic has sighted it and sent a warning humming over the seas. Now the men at the station are quick to act. At a word from their chief they relay the message to the commander of the revenue cutter Seneca, lying by. The Seneca has been waiting for this message-waiting for the derelict's whereabouts to be reveal-And now, knowing them, it gets up steam and sails forth, a purger of the seas, on destruction bent.

Of derelicts there are two kinds those that float observed and those that float unobserved. Most people imagine that wrecked ships are ultimately driven ashore and that vessels reported sinking at the time of abandonment go down soon after. That is not true. Abandoned ships breed vampires of the deep. For months they float. Waterlogged, half sunken, pitched and torn by storm, they yet somehow seem to survive. They will live in gales that send the stanchest vessels to the bottom. Only time can destroy themthat is, unless electricity takes a hand.

Too heavy to rise to the surface and yet not water soaked enough to sink to the bottom and remain there, they crawl along just under the riding swells. Their abiding place is nowhere. From the untraveled tracks of the seas they may be carried by a storm directly in the path of navigation. Whither they go no word goes before them. They descend unobserved, quietly, grimly. Not until they have struck is their presence known. Then they take their toll. They destroy a ship, and from it another of their kind is made. It is their way of multiplying and spreading the breed. That is why it is

so important that they be destroyed. But now the Seneca has steamed into the province of the derelict. High in the mast the lookout is casting his eyes on all sides. If he is not alert the derelict may attack those on board the Seneca. Self preservation is strong in a

vampire.

But now the tip of a submerged mass rises above a distant swell. Caught in a sudden pitch of the sea, the derelict has revealed itself. From the lookout's nest the cry sounds. The speed of the Seneca is reduced. It moves slowly toward its quarry. And now the work of harnessing electricity for the destruction it must do begins. From the magazines are brought mines charged with sixty pound burdens of guncotton. From the storehouses are brought insulated electric cables and a hand magneto. A small boat is lowered, and the mines are taken on board. Then the boat rides over the sea toward the derelict, a risky ride if the swells are running high.

And the next comes the work of placing the mines where they will create the greatest explosions. If the wreck is submerged the task is more difficult. More mines must be used. Exquisite care must be employed in their placing. Finally the explosive charges are connected by means of the insulated electric cables, and the wrecking party draws off to a safe distance. The man with the hand magneto provides the necessary current, the detonators of fulminate of mercury explode, the primers of dry guncotton are dealt a harsh blow, the explosion is sufficient to loosen all the heavy powers of the masses of wet guncotton, and then the derelict flies apart, its back broken, its sides flying through the air, a scraping and rending of planks, the sodden splash as they hit the water againthe sound of a vampire dying.

MONEY THAT WILL TALK.

Speaking Banknotes as a Protection Against Counterfeits,

The question of protection against counterfeit banknotes is one which is being discussed in England just at present. A member of the Royal society recently showed the results of a discovery which he made, and by this means he is able to imitate copper or steel engraved banknotes so perfectly that the president of a large bank was unable to pick the single genuine banknote out of a lot of ten, which included nine of the kind reproduced by the author. This was intended to show the error of the prevailing opinion that banknotes cannot be imitated.

At the same time that this somewhat disconcerting news comes out a new remedy against counterfeit notes is proposed, this being the "speaking" banknote, and should a system of the kind be adopted the note will not only concern the eye, but will assert its genuineness in a loud and intelligible voice should it be placed in a phono-

naturally be used, and its purport is of little importance, as it is designed simply to have a check upon the quality of the banknote by the use of the voice.

All that is needed is to put the note into a properly designed phonograph, when it will speak for itself, according to the present idea, while a counterfeit remains silent. The method is certainly an original one, but it would not seem a very hard matter to counterfeit the phonograph record as well as the note itself.—Scientific American.

"NOISELESS" REVOLVERS.

Hiram Maxim Says They Exist Only Upon the Stage.

There are two reasons, says Hiram Maxim, why the firearm silencer is of no value to the criminal who wants a noiseless revolver.

In the first place, it won't "silence" revolvers, and, in the second place, such attempts to use it are extremely dangerous. In the old fashioned revolver the crack between the cartridge chambers and the barrel renders a muzzle silencer useless, and in the automatic pistol the imprisoned gases rush out into the face of the shooter with disastrous results when the breech automatically opens.

Besides, even in rifles the silencer does not eliminate the "crack" of the bullet's passage through the air, except where the muzzle velocity is below 1,100 feet per second. The only rifle with so low a muzzle velocity as this is the 22 caliber, popular for small numbered four (4), on a plan of property in Artarget shooting. In other rifles the lington, belonging to Ernest A. Snow, C. E. Gaunett, C. E., dated March 31, 1911, and recordflight of the bullet causes a sharp sound like the cracking of a whiplash, a sound not heard until the powder ex-

plosion is silenced. Therefore, says Mr. Maxim, when you see a stage burglar within a few feet of you noiselessly shooting down lamps, people and other stage properties with a "silenced" revolver or pistol or even with a grownup rifle don't reckoned with only behind the footlights.—New York Post.

Shakespeare's Gloves. Furness, the Shakespearean authority. is a worn pair of Shakespeare's stage gloves with an unusually definite pedigree. They were presented to John Ward when he played Othello at Stratford in 1746 for the benefit of a fund for repairing Shakespeare's monument in the church by William Shakespeare, a poor workman "whose father and our poet were brothers' children." John Ward gave these gloves to David Garhis widow, who left them to Mrs. Siddons. She left them to her daughter Cecella, and Miss Siddons presented them to Fanny Kemble, who gave them to Dr. Furness in 1874. to Dr. Furness in 1874.—New York Press.

Testing the Cooks.

The position of instructor in cooking Judge of said Court, this fifteenth day of Jan having become vacant in a school for girls in Paris, the directors agreed to engage the cook who could pass the best "practical examination." Twelve women applied, of whom six were examined on the first day in beefsteak. omelets and apple cakes. Four of the six, according to the report, were "failures." On the next day the remaining candidates prepared flounders, roast mutton and plum pudding. The jury found that only two of the second group were competent and that of the twelve not one possessed all the necessary requirements.

Kissing In Russia.

In Russia it is a crime for lovers to kiss in public, and recently two young men and two young women were arrested in Odessa for having been guilty of this offense. They had all been dining together in a restaurant and kissed on parting. They were condemned to short terms of imprisonment, and the sentences were confirmed on appeal. The general fine in Russia for kissing In the open street is \$3.75. For kissing in a tramcar the fine may be anything up to \$6.25.

Cookery Points

Core and quarter but do not pare three large tart apples. Stew tender and rub through a sieve. Beat the whites of three eggs stiff with a cupful of powdered sugar and beat into the apples and continue to beat until like snow. Pile lightly into a glass dish and set in a very cold place. Make an orange or vanilla custard with a pint of milk, three eggs, a level tablespoonful of cornstarch and two tablespoonfuls of sugar. Beat the sugar, cornstarch and eggs together until light and then pour over them, stirring rapidly, the scalded milk. Return to the double boiler and stir and cook until smooth and thick. Remove from the fire and add a pinch of salt and flavoring of vanilla. When the sauce is cold freeze it about as stiff as water ice and serve with the ice cold apple snow.

Vegetable Soup.

A good soup is made in the following way: One tablespoonful barley, half a cupful diced onions, half a cupful diced potatoes, half a cupful cut cabbage, half a cupful diced carrot. half a cupful tomatoes, half a cupful celery cut fine, a tablespoonful salt, a quarter teaspoonful white pepper and a tablespoonful of finely chopped parsley. From three and three-quarters pounds (cut roast) of beef take the bottom part, which has the rib bone

in. Wipe the meat with a piece of wet; cheeseclotff, put in saucepan, cover can. with three quarts boiling water, boil slowly one hour, then remove the meat and add the following vegetables: Barley, onion, potatoes, cabbage, carrot, tomatoes and celery. Cook until tender and serve steaming hot.

Creamed Potatoes.

Creamed potatoes may be made from freshly boiled or cold potatoes diced. For one pint of potatoes make a white sauce, using a tablespoonful of flour. two tablespoonfuls of butter, a cupful of milk, a tablespoonful of chopped parsley, a little cream and salt and pepper to season. Melt the butter in a saucepan, add the flour and cook and stir until smooth and well cooked. A frequent cause of failure with creamed potatoes comes from the raw taste of the flour. Add the milk and seasoning and, if you have it, baif a cupful of through serve at once.

Prune Pudding.

Take to one large cup of prunes five apricots or prunellas. Cook tender; remove the pits; return to the pot; add half a cupful of sugar and cook to a pulp. Remove as much of the skin as possible and when quite cool add the beaten whites of two eggs and beat rapidly for ten minutes. Heap in glasses and serve with a vanilla custard made of the yolks of the eggs, one pint of milk and two tablespoorfuls of sugar. If you wish to use the whites for another purpose whipped cream may be served or the custard alone is quite sufficient for a plain dessert

Sauted Codfish

For this breakfast dish semove skin and bones from three slips of fresh codfish and cut each slicely two pieces. Season with a little salt and plenty of pepper and dredge with flour. Dip each piece in beaten egg and then into cracker meal and saute in hot fat. Have ready a dressing tande by stirring an ounce of butter to cream, adding a tablespoonful of comon juice, a tablespoonful minced pareley, an eighth of a tablespoonful of grated nutmeg. Spread this over the hot fish and serve. Other fish may be done in the same manner.

Halibut a la Creole.

Get a thick square piece of halibut or other firm flaked fish if preferred. Wash well in cold water, wipe dry and lay in a baking dish well buttered or spread with bacon fat. Season with salt and pepper. Mince a clove of white garlic as fine as possible and strew over the fish. Stick in a whole clove here and there, far apart; then add a half pint of fresh or canned tomatoes. Bake until the flakes separate and look dry. Take up carefully and serve with garnish of parsley and cut

Fillet of Mackerel.

Cut each mackerel into four fillets; remove the dark skin. Put them into a basin with pepper and salt, thyme and a bayleaf, three shallots cut into pieces. some sprigs of parsley. Add to these two tablespoonfuls of oil and one of French vinegar and allow them to marinade for three hours. Drain upon a napkin. Dip them in flour, then in beaten egg and breadcrumbs and fry to a golden color. Serve garnished with fried parsley.

Meat and Rice Croquettes.

To make these croquettes use one supful of cold boiled rice, one cupful of finely chopped meat of any kind, half a teaspoonful of salt, a saltspoonful of pepper, two tablespoonfuls of butter. half a cupful of milk and an egg. Put the milk on to boil and add the meat. rice and seasoning. When this boils add the egg, well beaten, and stir one dip in beaten egg and fry in hot lard.

TEMPERED COPPER.

Metal Experts Say It Never Was Made and Never Will Be.

Science and even the ordinary progress in the arts and crafts are each iconoclasts in their way-that is, they tear down and destroy ideals long possessed and generally cherished by man. Just now it is that delightful old claim that the ancients knew how to temper copper to the hardness of steel.

For years this has been a general belief, and enany a story and not a few serious articles have been written describing how the men of the period just following the stone age used to mine copper and by a secret process temper it and make wonderful knives and other weapons and tools from it. It was called a "lost art."

But now not only scientists, but skilled craftsmen in metals come forward and declare the ancients never tempered copper, and their reason for making this declaration is that copper does not possess the properties that will enable it to be hardened by any process what-

"It is safe to declare." states one expert, writing for a mining publication, "that copper has never been tempered at any time by any one, as it does not possess the necessary properties. Copper can be hardened in a number of ways, the easiest being to plunge the finished article into molten antimony or arsenic. The resulting alloy formed on the surface is exceedingly hard and brittle. Recent research in Mexico has shown that the tools there supposed to be made of hard copper were made by smelting mixed ores of copper, nickel and cobalt. , The resulting alloy was naturally hard. None of these old tools are of a quality equal to those which can now be made."-New York Ameri-

FORCE OF BIG WAVES.

Fearful Power That Is Exerted by an Angry Sea.

The average inland American who has never seen the ocean has no real idea of the force of its waves. He reads about the storm, of boats being carried away and bulwarks stove, but he does not realize the steam hammer blows that may be struck by mere

A recent storm on the British coasts received the official designation of a storm of "extreme force." A picture taken in Hastings harbor shows the concussion with which the waves struck the sea wall, sending the spray apparently higher than the buildings along the street. Blocks of concrete and iron railing were torn from the cream. As soon as the sauce begins to new parade extension at Caroline thicken add the potatoes, whole, diced place and tossed back into the road- those who live within are not by any or cut in small balls with a potato way as if they had been bits of means tubercular. scoop. Do not stir. When heated plank. Timber work that had with- The simplest method of constructing stood the stress of years was torn a real sleeping porch in a new house of apart and carried away. Basements modest proportions is to construct a were flooded along all the seaward face of the town.

Such a storm when it sweeps over a most everything on deck. Deck houses are often smashed, and the lifeboats are often stove in and ruined.

Various attempts have been made to devise motors to develop power from the force of the waves. The amount of energy wasted through their lack of success is beyond estimate. If the power of the sea could be used it would drive the machinery of an unlimited number of plants.—Exchange.

Ancient Water Drains.

Surprising discoveries have been made in the effort to excavate the vast baths of Caracalla at Rome that have lain hidden under 200,000 cubic meters of earth. In this latest excavation it has been found that underneath the baths proper was a subterranean city, consisting of over 4,000 yards of vast galleries used by the velous hydraulic, heating and ventilating systems. The drainage is described as splendid, and but for the rise in the level of the river Tiber. which makes it impossible sufficiently to slope the pipes, these same drains could still be used.

Dark Holes In the Sky.

Absolutely dark spaces among the stars have puzzled astronomers since the time of Herschel. In Milky way photographs Dr. Kopff has noticed an almost complete absence of faint stars immediately around certain nebulae. with an abundance of such stars within the nebulae and far outside. A late suggestion by Rev. T. E. Espin is that the margins of such nebulae may be too diffuse to become illuminated and yet dense enough to absorb light. If such an assumption be made he finds that it explains not only the blank surrounding spaces, but the dark holes and lanes within the bright nebulae.

"Forty and a Bittock."

The novelist Barrie has given a new phrase, a Scottish phrase, which may be adopted into the English language. It is to take the place of the awkwardly polite terms of "a woman of uncertain age," or "on the wrong side of forty." or "of years of discretion." His phrase is "forty and a bittock." A "bittock" is Scotch for a bit more or a short distance. It may mean five years or twenty years.

Every Dose an Experiment,

For the confusion of those who think medicine an exact science the following statement of Dr. James Frederick Goodhart, a great London doctor, seems worth spreading on the record: "I suppose that there has never been a dose of medicine administered that minute. When cool form into rolls. has not been in some measure an experiment."

Woman's World

Mary L. Read, Founder of Mothercraft School.

The School of Mothercraft, which for over a year has been doing such splendid work in New York, was founded and is directed by Miss Mary L. Read, a college graduate, who has applied her university training to the nursery. Miss Read in her not very long life has been both a kindergartner who recognized in Froebel the mother educator and a social worker who considers skillful mother work the surest path to social

progress. The School of Mothercraft is carrying out the same ideals as Sesame House, in London, which is a training home for ideal childhood and ideal womanhood, with the same vital method of teaching through the home life, the kindergarten and outdoor activities.

The old fashioned idea that any woman of average intelligence was intuitively equipped by nature for motherhood does not hold good with the up to date woman of today who fits herself scientifically for this vocation in the same businesslike manner as for a professional career.

SLEEPING PORCH.

How to Construct This Very Popular Apartment,

The sleeping porch may be a fad, but it looks very much like a fixture, says a writer in a builders' magazine. In some of the suburban communities there are houses specially designed to accommodate sleeping porches, and

generous dormer in the roof on the sheltered side. leaving it entirely open at the front except to a point about ship will sometimes carry away al- two feet above the floor, to which height it should be boarded up. In this way a room of adequate size is formed without drafts and requiring only a

> curtain in front to secure privacy. A good plan is to shingle the roof and sides and to lay a heavy grade of prepared canvas on the floor. This roofing and deck canvas is waterproof, so strong that it may be walked on freely. comes in widths of thirty and thirty-six inches, is lapped an inch and a half when it is put down, and it is fastened with tacks not more than an inch apart.

> It is best to give it a coat of paint at once and to keep it painted at intervals throughout the year. Make provision for draining off water, which will sure-

ly be driven in when hard storms come. Couch hammocks seem to belong to sleeping porches and are as convenient and comfortable for an after dinner siesta as for the nightly repose. It is slaves and attendants and for mar- important to have a thick and well made mattress, both for comfort and to keep the cold from penetrating. Little else in the way of furnishings is need-

ed except perhaps a rug on the floor. The Ante-inaugural Parade.

It is better to be a large frog in a small pond than vice versa, veni-vedivoci, ad lib. Which is to say the suffragists will not march in the inaugu ral parade on March 4, but will have a parade all by themselves the day before. Dr. Anna Shaw says so, and she knows, because she has just returned from the board meeting of the Woman's National Suffrage association, held at Chicago a week ago. The Washington suffrage organization, of which Miss Florence Ethridge, a charming, brilliant young lawyer, is president, had petitioned the national board to take action on the parade suggestic because they feared to undertake any thing so significant themselves. The national board thought it would be a "great opportunity for propaganda," so they told the Washington suffragists to go ahead with arrangements. They appointed Mrs. Harriot Stanton Blatch to manage the national work for the pa rade because she has a genius for making them successful. She does not yet know she has been appointed, but that will be all right.

Individualism Defined.

In speaking to the girls at Barnard college. New York city, in chapel a short while ago Dr. McCastline, the newly appointed head of the department of health at Columbia university, said that the cardinal prerequisites for an efficient life are bodily health, a well poised mind and individualism. The last he differentiated from eccentricity by defining it as that quality which makes us not creatures apart, but rather a human piece of the world's picture puzzle—unlike the other pieces, but fitting in perfectly with the rest.

WOLVES IN RUSSIA

Daring Brutes That Attack Travelers on the Steppes.

EXCITING BATTLE AT NIGHT.

Perilous Plight of a Sleigh Party That Was Surrounded and Set Upon by a Pack of the Ferocious and Famished Animals A Timely Rescue.

There are still wolves on the steppes of Russia and pretty ferocious ones at that, as appears from this story sent to a Swedish paper by one of its correspondents, who was traveling a winwhat was formerly known as Lithuania.

It was a bright, frosty winter day. The snow was excellent, and the mail sleigh glided forward at great speed. A troika with three Poles in it followed behind. Toward sunset we emergof us as far as the eye could reach.

Soon the stars made their appearance, and the moon rose. It was bitterly cold, and the snow crackled beaway, and profound silence reigned.

which the horse is capable only when and at a trifling cost. in extreme fear. I could see by the over the frozen surface of a marsh pool which lay some twenty paces from us on one side of the road.

No animal can travel more silently than a wolf when in search of prey, and none can attack so suddenly and my gun when a second wolf rose immediately in front of the horses with crest erect and green, phosphorescent eyes. At the same time points of light appeared all over the mere, and the howling of the beasts rang out.

A shot was fired. Revolver in hand, Lescek, one of the Poles, stood on the driving seat of the troika. Then from the mail sleigh I discharged both barrels of my gun, and a savage howl announced that they had taken effect. Two of the most daring of our assailants lay rolling in the snow.

The three Poles kept firing furiously. although the attack of the wolves was ably because it was drawn by double actually spell every word in the lanthe number of horses. Our driver had guage! That is what the young Horace no other weapon than his loaded whip, is said to have been able to do.

with all their strength to break the harness. At each shot from my gun and out he kept incessantly at its the wolves scattered, only to collect study. Hour after hour he would lie again immediately and renew their at on the floor, spelling over all the diffiarose a wild yell behind us.

The three Poles were rolling in the had torn themselves loose from the troiks in their terror, and were careersteppe, pursued by some of the wolves. They were soon pulled down, and in the stillness of the night their death screams were terrible. The Poles walweeping and lamenting by turns.

Their situation was, indeed, sufficiently serious, for only Lescek had had enough presence of mind to hide himself beneath the sleigh, and the mail driver and I, surrounded by wolves, could give them no help. I looked upon them as doomed and felt sure that we should quickly share their

Suddenly our pursuers disappeared, and although bleeding badly, the horses became calmer. The gleaming eyes of the wolves were seen only here and there out on the steppe. A shot rang out, then a volley, succeeded by yells of pain. A dozen dead wolves lay on the ground, and two huge beasts actually expired beneath the hoofs of the horses as our rescuers came up in their tinkling sleighs.

It was a landed proprietor with his servants whose solitary farm lay only a couple of versts away. None of us was dangerously wounded. The wolves had treated the Poles worst, for their clothes were nearly torn from their bodies. They were bitten, too, but not seriously.

The following morning our host, Herr Stanski, came across the skeletons of the three troiks horses scarcely half a verst from the scene of our struggle. The poor creatures were still bound together with the harness. What our own fate would have been were it not for our timely rescue, is not hard to imagine. The thought of it makes me shudder to this day.

Followed Mamma's Advice.

"Did he kiss you when you accepted "No: I wouldn't permit him."

Why not?"

"Well, mamma told me that we ought to act differently toward each other after the engagement."-St. Louis Post-Dispatch.

Generally the Way.

Crawford - Everybody wonders at your judgment. How do you manage it? Crabshaw-Just a little system I worked out. Whenever I find I'd like to do anything I make up my mind it's something I'd better not do.-

Nothing is lost so surely as that which we dared not risk.

STANDARDIZATION OF PARTS.

Eli Whitney's Scheme Revolutionized the Manufacturing Business.

The system of the standardization of parts, now so universal, originated with Eli Whitney, the inventor of the cotton gin, when he undertook to make muskets. The government gave him a contract in 1793 for 10,000 stands of arms, although he had no "plant" for their manufacture. He built a small factory in New Haven, Conn., and began work, but found a great obstacle in the difficulty of getting good workmen, especially those capable of acting as foremen under his novel methods.

His plan, as is pointed out by George Iles in a recent original study of Whitney's achievements, was to make of his factory a single huge machine. In an armory before Whitney's day each ter or two ago through the wastes of man, highly skilled, produced by himself a distinct part of a musket. This division of labor Whitney supplanted by so apportioning work that little or ho skill was demanded. He separated the various tasks and at each of these operations kept a group busy. For their assistance he simplified each oped from the dark pine woods upon the eration and introduced three aids since steppe, which stretched away in front indispensable in manufacture-drilling by templets or patterns, flling by jigs or guides and milling irregular forms.

From first to last a model musket was copied with precision so that evneath the runners. The horses' breath ery lock, for example, was exactly like rose in the air like thick smoke. The every other among thousands. When songs and shouts of the Poles died all the parts needed to form a weapon were assembled they united much su-Suddenly one of the horses whinnied, perior to a musket formed on any oththen another, and a third shied vio- er plan. In case of repair a new part lently, uttering that terrible cry of exactly fitted the place of an old part

In order to accomplish his purpose light of the moon the shadow of an and carry out his contract, whose exeanimal about the size of a dog flitting cution was much prolonged, Whitney was obliged to invent new tools and machines at every step, none of which was patented. By doing so he not only greatly improved the finish and accuracy of his guns and the speed of their manufacture, but so impressed the valunexpectedly. I was slowly raising ue of the idea of standardization upon the minds of manufacturers that it was presently applied in other trades and has long since become the rule in manufacturing.-Harper's.

A CHAMPION SPELLER

Horace Greeley Was a Wonder When Only Six Years of Age.

No champion of the old time spelling matches, perhaps, ever excelled Horace Greeley. He was, in fact, a spelling prodigy. What would the boys and girls of today, who grumble over their daily stint of twenty words, think of directed more against our sleigh, prob- a child not yet six years old who could

but with it he dealt tremendous blows. His schooling began in his fourth The horses struggled madly and tried year, and the art of spelling at once became a passion with him. In school tack on the horses. Suddenly there cult words he could find in the few books that the family owned.

The fame of his prowess spread. snow by the side of their overturned Naturally Horace was the first one sleigh. Lescek's badly driven horses chosen at spelling matches. He had a lisping, whining voice and spelled his words with the utmost confidence. ing wildly over the snow covered Sometimes in winter, when the snowdrifts were so deep that one of the big boys had to take him to the schoolhouse on his back, the little white haired fellow would drop asleep belowed about in the snow shouting, tween turns. When his word came round his neighbor would nudge him anxiously. He would wake, spell his word and drop asleep again at once.

So great was the boy's reputation as a student of unusual powers that the Prompt Delivery selectmen of a neighboring town, in passing a rule forbidding the attendance at the local school of any pupil from outside the township, honored him by adding the clause, "Excepting only Horace Greeley."-Youth's Com-

Sarcastic.

This incident is related of a Scotch doctor, new to the gun, who adventured upon a day's rabbit shooting. Chased by the ferrets, bunny was a

rather quick moving target, and the medico was not meeting with the success he anticipated. "Hang it all, man," he exclaimed im-

patiently to the keeper who accompanied him; "these beasts are too quick

"Aye, doctor," the pawky keeper replied, "but ye surely didna expect them tae lie still like yer patients till ye kill them?"

Yet He Liked Fresh Air.

"My husband was at a smoker Saturday night and never got home until about 1 o'clock."

'Was that why he wasn't at church Sunday morning?"

"No; he says the ventilation is so poor in church and the atmosphere always gets so heavy that he can't keep awake."-Judge.

A Surprise Coming. Pastor's Wife - You understand, Mary, that I am only "at home" on Wednesday from 3 to 5. Many-Yes. ma'am. Then to herself: "Mary, what

a heavenly situation you have got!

The mistress only at home for two hours every week!"-Exchange. Always Late. "Men are always late. I have waited

come. Now it is half after 8." "And when were you to meet him?" "At 5 o'clock."-Lustige Blatter.

His Finish "He slipped on the polished floor and

killed himself." "Sort of a hardwood finish, eh?" Princeton Tiger.

She served in a similar capacity to Mrs. Roosevelt, whose personal friend she had been before the Roosevelts entered the White House.

daughter of Dr. Charles E. Hagner and off and give some one else a chance. a niece of Justice Alexander B. Hagner of the supreme court of the District of Columbia. She has been identified with smart residential circles from the time she entered society. Since the close of the Roosevelt administration Miss Hagner has been a clerk in the state department.

What to Do With Apples.

Belmont baked apples are made in the following way: Wipe selected red apples and make two circular parallel cuts through the skin of each, leaving a three-fourths of an inch band around the apple midway between stem and of pan. Bake in a hot oven until the apples are soft, basting with sirup in

pan. To make Dutch apple cakes, says the Woman's Home Companion, mix one cupful of scalded milk, one-third cupful of butter, one-third cupful of sugar and one-third teaspoonful of salt. When

RELMONT BAKED APPLES DUTCH APPLE CAKE

lukewarm add one yeast cake broken in small pieces, two unbeaten eggs and bread flour (once sifted) to make a soft dough. Cover and let rise until mixdown, beat thoroughly, cover and again let rise. But down, spread evenly in a buttered dripping pan and brush over with melted butter. Wipe, pare, cut in righths and remove cores from five sour apples. Press sharp edges of apple sections into the dough in parallel rows, lengthwise of pan. Mix onefourth cupful of sugar and one-half teaspoonful of cinnamon and sprinkle over dough. Then sprinkle with two tablespoonfuls of currants. Cover, again let rise until light and bake thirty minutes.

Hideous Hats. Why should the Irish caubeen, one of

the most hideous of headdresses, be adopted by beauty as one of fashion's favorites? It has a strange, unfinished. rough-jolly kind of expression that assorts very badly with a poetic face. There is no gainsaying that sometimes it is a very becoming headgear, but nothing can make up for its want of dignity. Many girls seem to study the best way to look utterly unkempt. It is a mistake.

When Things Hummed

After the Ball Was Started It Rolled Rapidly.

By AMY HARRIS.

**** "Now, then, Hannah, things are going to hum!"

It was Aunt Judith Wellman who spoke. She had arrived from Indiana for a visit with her sister in Michigan. and the pair had been talking for the last hour on the veranda, while Farmer Henderson was doing up the chores at the barn.

"What do you mean, Judith?" was asked.

"I mean several things. I mean that I have never heard of a case like it. Your Minnie has been old enough to marry for these last three years, and you've let a feller dawdle around here and make sheep's eyes at her and keep all other fellers away and yet hasn't asked her to be his, and may be three more years doing it. I call it a mean shame. When I say that things are and started chills up and down his going to hum I mean that somebody has got to toe the mark mighty soon or get out. You and Elisha ought to have put your foot down long ago."

"You wouldn't do anything to embarrass Minnie?" pleaded the mother.

"That's according. I guess the embarrassment will all be on the other side, however. Embarrassment is all right in a girl, Hannah, but it shouldn't be carried too far. Both of us were embarrassed when we were girls, but we weren't so much so as to kill our prospects of getting married. We knew when our beaus had hung around long enough. Has Minnie ever given this chap a jog?" "Mercy, no!"

Have you or Elisha ever given him 'Never!'

"Then it remains for Judith Wellman to do it, and she's right on deck, with both elbows stuck out. It won't be a week before we'll know whether Joel secretary by Mrs. Woodrow Wilson is Davis means business or is just sitting around like a bump on a log."

"But you won't-won't"-

"I don't know what I'll do, except to decide the case one way or other, and you needn't ask questions. I don't believe in folks getting married within a week, and I don't believe in courting Miss Hagner was prominently identifor half a lifetime. A fellow either fied with the social life of the entire wants a girl or he don't. If he does Roosevelt administration. She is the let him take her; if he don't let him shy Minnie Henderson was twenty years

old and a recognized belle for ten miles around. Everybody was agreed that she would make somebody a good wife. She had been "keeping company" with Joel Davis for nearly three years. Joel was a bachelor of twenty-seven, living on the next farm west. He was steady, sober and industrious, and everybody said that he would make some girl a good husband. But Joel was also bashful and retiring. He was in love with Minnie, to be sure, but that very fact made him tremble in her presence. A hundred times over in the last two years he had resolved to propose, but blossom ends. Put in baking dish, on each and every occasion his courage sprinkle tops generously with sugar had oozed out of his fingers' ends. He and add boiling water to cover bottom felt that the time must and would come, but whether it would take an earthquake or a cyclone to bring it

about he wasn't sure. It was three days before Aunt Judith saw Joel. She liked his looks, and that changed her plans somewhat. She hadn't been going to say a word to Minnie, but now she changed about

and opened fire with: "Well, I am astonished! So that's the feller that has been hanging around here for half his lifetime and will probably die of old age on your father's doorstep!"

"I don't know what you mean by 'hanging around.' " retorted Minnie, with a blush and a toss of her head.

"Why, coming over here two or three times a week to talk about grasshoppers and tater bugs. I am surprised at you. What can you see in such a feller to encourage him? I suppose he knows pumpkins from squashes, but I'll bet a big apple that if you asked him when the pilgrim fathers landed he'd fall off the veranda. Minnie Henderson, if you are the girl I take you to be you will send that feller packing this very evening."

"You misjudge him, aunty. He does not push himself forward, but"-

"I've got eyes in my head," snapped ture has nearly doubled its bulk. Cut her aunt. "It never takes me over five minutes to size up a man. Joel Davis is an 'it!' He'll always be ten days behind the Fourth of July. It's a wonder your father and mother have allowed it."

> Minnie choked down a sharp answer and went off to her room to cry, and Aunt Judith sauntered into the kitchen to say to her sister:

> There, now, I've got the thing started, and you and Elisha have got to turn in and help me. Minnie will ery and then get mad and then see Joel, and there'll be a wedding before you know it. Don't you weaken when the time comes."

> Next day Joel came to the house to bring back a bushel basket he had orrowed. Minnie was upstairs and Aunt Judith hiding behind the door. so it was left for Minnie's mother to

"Joel, I've been wanting to speak to you for some time. I don't think you ought to come here as often as you

"W-what!" gasped the lover as he turned very red. "Your coming here so often keeps."

working in his field. Minnie's father had been posted and was waiting for his opportunity. Joel had stammered out that it was a hot day and that corn seemed to be looking up and that he was atraid that one of his cows had the hollow horn, when Elisha finished hilling up a hill of corn and

other young men away and does not give Minnie a fair chance. Of course

she has no thought of marrying you,

so it isn't right to waste her time on

Joel stated with open mouth, but to

save his neck be couldn't say a word

in reply. After making several vain

attempts he walked off. On his way

home he turned aside and climbed the

fence to speak to Farmer Henderson,

slowly said: "Joel, they say that there's going to be a heap of windmill and wire fence men along here this fall, and if any of 'em want to board with me for a week or two I shall take 'em in."

"W-why?" asked Joel. "Well there's Minnie, you know.

It's time she was thinking of getting married Some of those windmill fellers are smarter than chain lightning and well off to boot. I've always kinder thought I'd like one of them for a

"Mr. Henderson"- began poor Joel, but he had to halt at that. The change in the attitude of the farmer and his wife brought a great fear to his heart back.

"Minnie ain't looking for a husband, you know. She don't have to do that, but when the right feller comes along I guess a match will be made. A piano agent the other day asked me if she was engaged, and I told him there wasn't anybody around here good enough. Yes, it's a purty hot day, Joel, and I shouldn't wonder if tomorrow would be hotter."

Joel didn't do any work the rest of the afternoon. He simply sat and thought. The result was that when evening came he headed for the Henderson homestead. He was going to see Minnie and find out what had happened. It was Aunt Judith who was at the gate when he came up, and she didn't lost any time, saying:

of me. I'm Minnie's aunt. Walk along the road with me while I talk to you. You don't want to force yourself upon a family where you are not wanted. do you?

"Young man, I guess you've heard

"Has something happened?" he anxiously asked.

"Well. Minnie's father and mother have got their eyes open at last. She has been praised so much that they realize she can make a good match. I don't care to tell you what the sewing machine man said today, but you can bet it was something nice. You know you hain't just the sort of man the Hendersons want for a son-in-law. Minnie may like you in a way, but when it comes to real love that's another thing. If I was you I wouldn't waste any more time here."

"But I love Minnie!" blurted out Joel, as he was driven to desperation. "But if she don't love you what are you going to do about it? Better give the thing right up and look for some

other girl. Going home, are you? Well. good night. Try and think I have told you this for your own good." Next day a farmer's little girl

brought Minnie a note, and half an hour after receiving it she was down in the hickory grove talking with Joel. When she returned to the house she looked pale and acted in a nervous manner, but she was not questioned. Soon after supper she pleaded a headache and went to her room, and Aunt Judith and Eisha and Hannah winked at each other. At 9 o'clock the house was quiet. At 10 Aunt Judith entered the spare bedroom, where hus-

band and wife sat waiting, and said: "Well, it's over with. Joel came to the gate and whistled softly ten minutes ago, and Minnie, who was all dressed, slipped downstairs and joined him. He had a buggy down by the

barnyard gate." "And-and"- gasped the mother as

she began to sob. "Hannah Henderson, don't be a goose. They'll drive to the preacher's and be married and be back here before the breakfast dishes are washed. Joel's got a wife. Minnie's got a husband, and you've got a son-in-law, and that's all there is to it."

The Heat In Lake Como.

Every one knows how beautiful the Italian lakes are and how luxuriant is the vegetation on their banks. This is due in a large extent to the heat absorbed in summer by the water, stored up and given out slowly in cold weather. A calculation has been made by a scientist named Vercelli. He estimates that Lake Como has an area of 136 square kilometers and an average depth of about 600 feet. In some places the depth is twice that. During midsummer this mass of water absorbs each bright day an amount of heat equal to that produced by burning 34,000 rons of coal. This storing up of heat goes on from the end of February until the water reaches its highest temperature in August. From that time on the water gives out heat to the surrounding stones until spring comes again, so that it is no wonder that this region is a floral paradise. - Exchange.

Why She Cried.

The children had been reminded that they must not appear at school the following week without their application blanks properly filled out as to names of parents, address, date and place of

On Monday morning Katle Barnes arrived, the tears streaming down her cheeks. "What is the trouble?" Miss Green inquired, seeking to comfort her. "Oh," sobbed the little girl. "I've for-

High Cost of Living.

Through the Civics Committee of the Arlington Woman's Club, the members listened to one of the most practical lectures ever given before the club, at its meeting, Jan. 16th, in Associates Hall. The lecturer was Mr. F. Palmer Spear, director of the Boston Y. M. C. A., who is also head of a large manufacturing of women at the canneries. plant, and a man whose advice is sought by men and women in all classes. His subject was, "The high cost of living and what women can do to meet it."

Mr. Spear began by saying that there was no relief in sight for the high cost of it gives them advanced, tense and epochgold dollar than ever before. He spoke of the tariff and what its protection meant of the tariff and what its protection meant and right. When eugenics becomes to this country's industries and what will known in every American home, when surely happen if that "interference wall" is taken down. He felt sure many of his audience would be wondering where their next meals would be obtained. The tariff ship, when the love of beauty is encourgives the stability which our country aged and not strangled, when, in short, could not have were the tariff taken away. He also spoke of the trusts and their inmade our industries safer than they would otherwise be. Labor unions, their good and also ill effects, was another point touched upon, as were our legislative bodies; a desire to live in the cities instead of the country; the greater demand forth for the present condition.

Our salvation is only in the training of this generation to become thorough business men, capable of fighting these problems in a business-like manner, and the willingness of the individual to put the brake on the high cost of living, and being willing to live within their means, regardless of their neighbors. During the informal tea, which followed the meeting, The spirit displayed by these many guests Mr. Spear answered many questions put to him by different members who tarried over the tea cup to gather further information upon subjects in which they were personally interested.

Forest Fires. State Forester Rane is making commendable efforts to reduce the forest fire risk, and his suggestion for legislation controlling "slash" from cuttings is per- event. tinent. But he might go further. It was pointed out last summer by Earl A. Ryder mally in the parlor, which was embowered before the American Forestry Assn. that additional legislation should be enacted enabling a railroad to enter upon unimproved land, to clear out combustible un | markable one and w s entirely the gift of derbrush, etc., and establish a tire line 100 feet outside its location; in case of disagreement between the railroad and variety of tea roses being in great abundthe property owner, the state forester or lance, while sharing honors with them the forestry commission should have known varieties and shades. brother. In the hall corridor was the guest book, in charge of Mrs. Florence Parker Drown, the only daughter of Mr. Parker's elder brother. Here was also the punch bowl. The son and daughters of the family made every effort to mingle with friends and to greet all comers, while the elder grandson, Master Wm. Parker Wood, was proud to assist as door tender. Many of the gentlemen had a pleasant half hour in the company of cigars and congenial friends in Mr. Parker's "den"

on the third floor. Mr. Parker is the second son of Ebenezer and Elsie Lord Rowell Parker, and was born in Charlestown, April 11, 1839, old New England parentage and revolutionary stock, which came to this country from England in 1632. Mrs. Parker was Cornelia Frances, second daughter of James and Ann Eliza Dudley Swaney. of Newark, N. J., where she was born. She is of Dutch and English ancestry, York state will be described by Miss her ancestors being among the founders Mary Louise Chamberlain, the young of New York, Her grandmother was of the family whose bequest to the Trinity church, in New York, gave that church its immense real estate holdings which

The couple was married at Woburn on Jan. 20, 1863, by Rev. J. C. Bodwell, pastor of the First Parish of that town. The bride's father was at Woburn, with his three daughters and a son, for a brief season in his capacity as an expert manufacturer of patent leather. Mr. Parker was at that time the editor and publisher of the Woburn Budget, to which city his parents removed when he was four years present investigation into the treatment old. He served his apprenticeship in the office of the Woburn Journal and completed his training as a printer in the large printing establishments of Boston.

Edward Sheldon and "the people —Rand & Avery, Alfred Mudge, N. E. who go to theatre" have a joint heritage Type Foundery, Wright & Potter. He has been a newspaper man for more than

fifty-eight years. In the summer of 1864 Mr. Parker had charge of a recruiting station at Woburn. and after securing a company to join the 11th Mass. Vol. Int., enlisted as a private in Co. B. His brother, John L. Parker, was a lieutenant, and Horace N. Hastings gether before the war and all three happily returned from the war to resume newspaper work. Prior to coming to Arlington in 1874, and purchasing from his brother, J. L. Parker, the Arlington COMMONWEALTH OF MASSACHUSETTS ADVOCATE and Lexington MINUTE-MAN, Mr. 1 arker was for seven years in New York with his cousin, Geo. P. Rowell, the founder of "Newspaper Directories." Since that date Arlington has been the home of the family, and here was celebrated the silver wedding; also, the 25th anniversary of the founding of the papers, at a banquet and reception tendered by a group of the leading citizens of Arlington. For nineteen years his only son has been a joint owner of these papers.

Mr. Parker is a charter member of Francis Gould Post 36, was Mass. Department Patriotic Instructor of the G. A. R, for ten years, during which time a most efficient department was organized by him. He was for a series of years Parker was a leader and lecturer in the celebration of the 250th anniversary of the incorporation of Arlington, in 1907, Mr. Parker was chosen historian and wrote a narrative history of Arlington, in the year one thousand nine hundred and thirteen. which had a large circulation and grows in value as time goes on. all that pertains to it.

BAST LEXINGTON LOCALS. Social Service.

Mrs. M. A. Page wrote and read a long and interesting paper before the Follen Guild, Sunday evening, on "Social Service," but want of space forbids us from doing justice to it. She prefaced it by quoting from Prof. Stern, who has lately said that as the fifteenth century is remembered by the Renaissance of art, the sixteenth by the revival of religion, the seventeenth as an epoch of science, the

generations as the age of social reform.

Nowhere is the call for social service more clearly heard than in the organization dedicated to religion, yet there are many devout people who view with skepticism, if not alarm, the movement of social service. They have been taught to regard religion as personal redemption from sin, or a spiritual allegiance to Jesus Christ. To associate religion with boys' clubs and recreation classes, seems to confuse two distinct spheres of life. "In the spirit of Jesus Christ and the love of truth, we unite for the worship of God and the service of man," is the typical covenant of a Unitarian church.

She then quoted Jesus' words in regard to love to God, etc., and the second commandment, "Thou shalt love thy neighboras thyself," and other texts, and said if the Christian life is to have any place in the modern world, it must be in the heart of the world's work and in the noise of the world's cares.

The church and social service must go hand in hand. Mrs. Page spoke of the ministry at large in Boston, and also of the great work done by Rev. Jos. Tuckerman, who was instrumental in forming the Seaman's Friend Society. In 1826 he became minister-at-large. His life was filled with work for others. The Social Service Council of Unitarian Women is doing a good work. They are interested in the Italian problem, and the committee in Winchester and Dedham have started night schools for Italians; another branch is the Children's Mission. The religious life and the social conscience are not two ways of living, but one continuous path along which the duty of the present time is led toward the eternal.

Next Monday evening is the regular meeting night for the E. L. Men's Club. Rev. Mr. Pickett preached a good sermon to a good congregation on Sunday, his subject being, "The Temple of God."

Remember this (Friday) evening the Bingville dance, given by Mesers. Fletcher and Wellington, for the benefit of the

The Reading Circle met last week with Miss Gertrude Pierce and continued the discussion of the Balkan States and war

Mrs. Mary C. Tolman's address on "Social Service," before Follen Alliance, this week, was interesting and appreciated by

Mr. Gilbert Hadley was much pleased that so many remembered him on his birthday with a postal card shower. It brightened the sick room wonderfully.

Rev. Harold L. Pickett will lead the Guild meeting, Sanday evening, and he will talk on "Child Labor, the Question of America." The churches have been requested to have a talk on the subject

some time during Sunday, Jan. 26. Mrs. Catherine F. Jones, widow of Melville D. Jones, of Somerville, died, Jan. 9, 1913, at Long Beach, California. Her funeral was Tuesday afternoon, Jan. 21, at two o'clock, from the re-idence of her son, Mr. Fred G. Jones, Mass. avenue, East Lexington.

Mrs. Carrie Anderson, of Manchester, Conn., was a guest, last week, at her old home on Maple street, of Mr. and Mrs. C. G. Kauffmann. She left on Saturday, and her sister, Miss Fannie Kauffmann, accompanied her for a visit of a week or

The concert given under the auspices of Follen Alliance, with Mrs. Mildred Long, director, was not as largely patronized as it should have been or as it deserved. We gave the program last week, but will say it was very excellent. Miss Kelley, the reader, was very generous in her encores and all the parts displayed talent and warranted unqualified praise.

Rev. Harold L. Pickett will be installed as pastor of Follen church on Monday evening, Feb. 3d. The acceptance of all who had been asked to take part has not yet been received, but we will give the details in next week's paper. It promises to be a pleasant occasion, with good speakers, and it is hoped many will attend, for it is a matter of rejoicing. Mr. and Mrs. Pickett, we are convinced, will do much for the growth of our little church.

Miss Kathleen Thomas has issued cards to the mothers of her music pupils and those interested in the subject, and stating terms. She intends opening a class in the theory and the history of music, beginning Monday, February, 3d, from

-The new hymn book purchased for use at the Park Avenue Cong'l church is enditled 'The Pilgrim Hymbal," and will be used for the first time at the Park Avenue church on Sunuay morning.

-The Friday Social Club will have the handserdijel table at the bazaar to be given in lown Hall, Feb. 18th and 19th, under the auspices of the Woman's Hospital Aid Asso'n. The Sunshine Club will

-Miss Clara Livingstone took a prominent part in the play given last week Friday evening in the vestry of the Unitarian church. Several of Miss Livingstone's triends who reside at the Heights attended the performance, which was given with

-Mrs. Thompson, of Fitchburg, better known, perhaps, by her maiden name, Katherine Leavitt, has been a guest of Mrs. J. Herbert Mead, this week. Mrs. Thompson was Mrs. Mead's maid of honor at her wedding, and during her visit here Mrs. Mead has made her guest's visit very enjoyable.

-Mrs. Wm. H. McLellan is the chairman of the Science Committee of the Ariington Woman's Club, which has the next lecture of the club in charge. It will be given next Friday evening, Jan. 31. at eight o'clock, in Yown Hall, when Dr. Woods Hutchinson will speak on

·Which is man's lite—his work or play?" +Don't forget the reading this (Friday) evening, at the Park Ave. church, which is sure to be a delightful presentation of the "Money Moon." The profits of the Avenue church, which should be an incentive for all interested in that parish to lend a hand toward making it a financial success.

-The Friday Social club transacted considerable business at its last meeting, which was held at the new home of Mrs. George Clark, on Cliff street. The house of eight rooms is most attractively ar-Clarks, who recently purchased the propcrty from Mr. Geo. W. Chickering. Mrs. Clark and Mrs. H. M. Boylston were the hostesses of the afternoon.

-Those of the Heights who have had the pleasure of becoming acquainted with Mr. and Mrs. Wm. F. Edgell, regret that Mr. Edgeli's business makes it necessary for the family to take up a residence elsewhere. Mr. Edgell has accepted a position in New York city, where he has been for several weeks, and where he was joined this week by his wife and little son. The house vacated by the Edgells has been taken by a Mr. Coolidge, who, with his wife and five children, have been living at Waverley. The family move into the house the 1st of February.

-The Singers' Club gives the second concert in their fifth season, on Monday REPAIRING night, Feb. 3. Rhys-Herbert's operetta, "Sylvia," will be given in concert form, with local artists in the solo parts. Miss Flanders, a graduate of Wellesley, will offer two readings and the chorus of thirtyfive members will also render "Beautious Night," (the Barcarolle from "Tales of Hoffmann') and the beautiful sextet from "Lucia di Lammermoor." Miss Grace Mooney will contribute a soprono solo. Several of the soloists will be heard for the first time at the Heights. In accordance with the present policy of the club, all of the soloists have been chosen from the club membership. The Singers' Club is not a money making organization, but was organized for the purpose of promoting the study of standard choral music and it is believed and hoped that all lovers of music at the Heights will continue to give it their hearty support. Although primarily organized for the study of music, the large number of associate memers, and there are almost as many of these as there are musical members, gives

Serious Costly Sickness

is far too sure to come when your bodily strength has been undermined by the poison of bile. Headaches, sour stomach, unpleasant breath, nervousness, and a wish to do nothing are all signs of biliousness—signs, too, that your system needs help. Just the right help is given and the bodily condition which invites serious sickness

successful rehearsals and social programs carried on during the present season are evidence of the interest which the club's aims merit. An attendance of from seventy-five to a hundred has been the rule at the regular Monday evening meetings, and a large audience is looked for at the concert.

-The subject of Rev. Drew T. Wymans sermous on Sunday, at the Baptist church, will be as follows: - Morning at 10.45, "The Reward of Consecration;" evening, at 7 o'clock,-"Eternal Life, is it Worth While?"

—An evening of Folk dances was given Tuesday, in Locke school hall, by ten girls of the Home Library club, under the

direction of Mrs. James J. Storrow, one

of Boston's public spirited women, who has done so much for a certain class, who have responded most gratifyingly to her interest in their welfare. The evening was arranged in the interest of the Locke School Association, which is the sponsor for the Summer School, conducted at the Heights last summer, and which the Association is arranging to continue this year. The hall was filled, seats being arranged around a hollow square, in which the dances were executed. Mrs. Storrow was introducted by the president of the Association, Mr. Herbert Snow, and she with his good "horse sense" he knows in responding explained the dances and inthat our feed is both tooth-ome, wholesome and sustaining. Give him a chance
to prove his good judgement by giving
to prove his good judgement by giving ning was one of keen enjoyment and was a splendid exhibition of the poetry of motion when properly trained and executed.

Mrs. Storrow and her group of young people, remained for a social half hour after the exhibition, at which all had the opportunity and many availed themselves of the privilege of meeting Mrs. Storrow and becoming better acquainted with the work in which she is engaged.

At the Theatres.

No more gorgeous and varicolored picture book has ever been unfolded than the stage form of "The Garden of Allah," at the Boston Theatre. The production proper, for which we are indebted to the Liebler Company, is a spectacle beautiful to behold. The play itself may be said to stand alone among similar dramas of the moment in spiritual elevation, for the book from which it is taken has produced a profound impression among all those who have read it. Mr. Hichens, author of the novel, and Mary Anderson, who assisted him in the work of dramatization, have proved remarkably expert as playwrights. A monk (Boris Androvsky), tired of the restraint and solitude of his ceil, breaks his vow, escapes to the desert, meets a beautiful woman (Domini Enfilden), who seems to fill every desire of his body and soul, and who upon her discovering his identity, forsakes her at her command, and returns to seclusion to atone for all that has gone before.

As for the spectacle proper, it lies in in the resplendant pictures of Eastern life, the camels, the dancing girls in Beni-Mora, their belligerent Arab lovers, the bleating goats and kindred sounds of Oriental life that strike the ear, the brilliant sun on the walls of the Monastery, and the strange lights that play on the sky that marks the far-off end of the horizon. All these details, result in unity of picturesque impression that fills the eye. with alluring pictures of a romantic and distant world. A most remarkable cast of players are seen to advantage in this remarkable of dramas, Dorothy Donnelly, Lawson Butt, Chas. A. Stevenson, as Domini, Boris and Count Anteoni respectively, share the honors of a notable performance.

"On to Richmond" is the title given to the gigantic military offering which will be presented this week at the Bowdoin Sq. Theatre by Clifton E. Egleston of Wm. B. Eaton Post 199 Revere assisted by fifteen civil war veterans.

The week of Monday January 27 will be the second and last of Mrs. Fisk's engagement at the Hollis Street Theatre, in her striking and highly successful Edward Sheldon play, "The High Road." Mrs. Fiske has rarely appeared to better artistic advantage than as the ill-treated child of the farm, who at 17 starts upon her eventful pilgrimage, and she surely has never appeared to more appealing or sympathetic advantage. Nor is Mr. Shel-don's play a dry-as-dust thesis on a moral question. On the contrary, it teems with the tensity and interest that are so frequently lacking in the stage offerings of to-day. The play is Edward Sheldon's best and Mrs. Fisk's characterization of Mary Page is one of the triumphs of her career. The production is a beautiful one and the cast excellent throughout. Mattinees will be given on Wednesday and Saturday. Mr. E. D. Parker was one of a party of six who witnessed the play on Tuesday evening and all were deeply in-terested in the play and charmed by the rare ability of Mrs. Fisk. Her support is really very fine.

The Bowdoin Sq. Theatre has already established itself as one of the leading vaudeville houses in Boston. This is due largely to the efforts of the management. Only the highest type of vaudeville is presented, while the moving picture program can be compared favorably with any ever shown.

The second week of the very popular John Craig prize play, "Believe Me, Xantippe," will begin at the Castle Square on Monday. The interest in it is by no means confined to Boston and its vicinity. Playgoers are coming from miles around, as they did also a year ago and year before last, to see the play with which a young dramatic writer gained a prize of \$500. "Believe Me, Xantippe" is genuine comedy from beginning to end. Mr. Craig, Mr. Melrose, Mr. Meek, Mr. Walker, Miss Colcord, Miss Browne and Miss Young are acting the leading roles in 'Believe Me, Xantippe."

There are six short stories in the February Metropolitan by Gouverneur Morris, Dell H. Munger, Compton Mackenzie and others. "The Night of the Luminous Petticoat," by Mackenzie is the first of a series of mystery stories. *Why Should I Marry," is the title of an interesting interview with Geraldine Farrar, the prima donna. Arnold Bennett writes on The Risks of Life," and Maurice Baring continues his amusing series called 'Around the World in Any Number of Days." Other articles are "Herve-ism, the Story of a Conversion," by Gustave Herve; "Where Philanthropy Fails," by Robert W. Bruere, and "A Magician of the Orchestra" (Richard Strauss), by James Huneker. There are the usual good art features, including a child portrait by Reynolds in full color and a tint paper insert of the sculpture of Paul Troubetzkoy.

RED TAPE IN FRANCE.

It Entangles One Even In Getting the Gas Turned on In a Flat.

France is at once the paradise and the inferno of bureaucracy. For example, I wanted the gas to be turned on in my flat. A simple affair! Drop a postcard to the company telling the company to come and turn it on. Not at all! I was told that it would be better to call upon the company. So

"What do you desire, monsieur?" "I am the new tenant of a flat, and I want the gas turned on."

"Ah! You are the new tenant of a flat, and you want the gas turned on. M. Chose, here is a new tenant of a flat, and he wants the gas turned on. Where should he be led to?"

About a quarter of an hour of this, and then at last I am led by a municipal employee sure of his job and his pension to the far distant room of the higher employee appointed by the city of Paris to deal with such as me. This room is furnished somewhat like that

E. Nelson Blake, president: John A. Easton, cash ier. Corner Massachusetts avenue and Pleasant street Open daily from 8 a.m. to 3 p. m., on Wednesday and Saturday evenings from 7 to 8.30. of a solicitor's managing clerk.

"Good morning, sir."

"Good morning, sir." "It appears, sir-M. Bennay, fourth floor. No. 4 Rue de Calais, sixth arrondissement, is it not?-that you want the gas turned on. Will you put yourself to the trouble of sitting down, M.

I sit down. He sits down. "Ah! So you want the gas turned

on! Let us see, let us see." . . Hundreds of such applications must be made every day. But the attitude of this ceremonious official might be put into words thus: "A strange and interesting application of yours, to have the gas turned on! Very remarkable! It attracts me. The case must be examined with the care and the respect which it deserves."-Arnold Bennett in Metropolitan.

JOYS OF A RUSSIAN HOTEL

Nice Lofty Rooms With Sealed Win dows and Smoke Laden Air.

Writing of the great Russian city of Odessa in Harper's, Sydney Adamson rangements of even the modern hotels. third Fridays of each month in G. A. R. Hall, the privilege of Russian we had 370 Mass ave, at 8 p. m. the privilege of paying over twice the legal fare for our drive to the hotel. The porters obligingly arranged the matter and quite cheerfully kept the difference. How like the rest of the world! We felt at home at once. The large, lofty bedchambers and corridors of the hotels make it just possible to live in rooms that have double windows seeled with putty, which are never opened from the beginning of the winter till the spring thaw is in the

"As there are no open fires the only ventilation is from the slightly better air of the corridors. A framed notice on the wall informs the visitor of all the privileges he is graciously permitted to pay extra for, among them the joy of being clean at the rate of 10 kopecks for a jug of hot water or 50 kopecks for a bath. But the greatest mystery of all was a samovar at 25 kopecks. In time it was discovered that your true Russian, naving a taste for much tea or other warm refreshment, rings for a lighted samovar and prepares his own beverage if he is not fortunate enough to possess a wife to do it for him.

"With the lady managing a flery, fuming samovar and her lord smoking innumerable cigarettes, with perhaps a visitor to help, one can easily imagine -not forgetting the hermetically sealed windows-the atmosphere in which some worthy Russians go to bed."

River Bed Patterns.

Ideas for the colors in the best Scotch tweeds are found in the bed of the river Garry, in the Pass of Killiecrankie, said Thomas Welsh in a paper read before the textile congress at Hawick, Scotland, recently. Granite. porphyry and jasper are found there in rich reds, grays and greens, beautifully mottled and mixed in fixely contrasted colors. "Heather mixtures," he said, "were asked for by sportsmen, who inquired for colors which resembled their shooting grounds. The first order of tweeds sent to London in bulk was six pieces of black and white check made in Peebles."-Argonaut.

Curious Result of a Tax.

A curious thing happened when the English auctioneers were taxed. At first £5 a year, the duty was raised to £10 by Peel, but he relieved them of the necessity of taking out a license for beer, spirits, etc., when they sold these articles at auction. The consequence was that everywhere the auctioneers carried on the sale of beer and spirits for thmselves until the abuse was stopped in 1864.

Cutting Him Short.

"Little one." he began, "you are too pretty to be shooting biscuits in a beanery. You ought to be on the stage.

"Been there," snapped the waitress briefly. "What'll you have? Gimme the particulars of your ten cent order. -Louisville Courier-Journal

Economy.

"I would suggest giving our new mayor three cheers," announced Si Waffletree at the first meeting of the new town council.

"Make it two cheers," suggested Hiram Waffle. Remember. we are pledged to economy all along the line."-Washington Herald.

Introduced Himself. She I beg your pardon, but I can't remember having met you before. He -Oh, yes. Last night at the ball some

one trod on your toe. That was me.-

Fliegende Blatter.

Hall, Massachusetts avenue, second and fourth Thursdays of each month, at 8 o'clock p. m. W. R. C., No. 43, meets on afternoons of same dates, at same place, at 2 p. m.

S. OF V. CAMP 45 meets in G. A. R Hall, on the first and third Mon days of the month, at eight o'clock. WRAP DRAPERY.

A Peculiar Effect Ob-

tained In This Model.

PARIS INDORSES NEW COAT.

It is hard to tell whether the wearer of this wrap is "coming or going," for the front panel seems to merge into a train. The wrap really winds about the figure in a very graceful way when its wearer moves.

ALWAYS LATE GIRL.

She's the Dropped Stitch In the Social Fabric.

Why is it that so few girls can be on time? Is it that they have no respect for the clock or no real conception of the value of time?

The girl who is always late, who arrives ten, fifteen or perhaps thirty minutes after the appointed hour, who keeps people waiting, with a sublime indifference to their discomfiture, is a nuisance and a bore. She is the dropped stitch in the social fabric. Some one is always trying to fill up the hole

made by her tardy arrival. Are you one of the girls who never can be on time? No doubt you think you make up for your tradiness and the trouble you cause by your apologies and your smiles. Perhaps you can make yourself believe that the abused ones who have waited forget their nervousness and impatience and anger

as soon as you do. But they do not. The hostess who has shivered and burned while her dinner reversed the process does not forget. She has been in purgatory even if it does look like her own parlor. She has had to say pleasant things while she thought the

opposite. That ghastly expectancy that pervaded her guests had to be diffused by her own calm assumption of perfect

pose and facile gayety. She gets a nervous headache as she pictures the wreck of her menu. You spoil the affair for her even if the cook manages to save the dinner. No; no one forgets you after you have made such indelible impressions on them.

What Women Are Doing.

Dr. Mary Mills Patrick, president of the American College For Girls, in Constantinople, is a native of Canterbury, N. H., and received her education in two lowa colleges. In 1869 she was graduated by Lyons college with an A. M. degree, and in 1890 she took a special course in the State university of Iowa, after which she went abroad to take charge of the Constantinople institution. Since then she has taken special courses at the universities of Heldelberg, Zurich, Leipzig, Berlin and

The College For Girls has been chosen by the Turkish government for the training of government students. There are at present more than 200 students, thirty of whom are Turkish girls. Two young Turkish women. Halide Hanoum and Gulishtan Hanoum, both graduates of the College For Girls, have distinguished themselves, the first as a writer, the second by her work for the Young Turk party.

Mrs. A. Calvert Bourgeoise is said to be the only woman who stumped the country for Woodrow Wilson. She was born in Missouri, received her early education in the public schools and was graduated from the Massachusetts Law school. She is in active practice in her profession, making a specialty of real estate and probate matters. She is thought to be the only woman public speaker and Chautauqua lecturer who is not a member of any club or suffrage organization. Though eligible to many, she prefers to remain independent.

Table Decoration.

Flowers and fruit mixed make a beautiful decoration for the dinner table. Put a glass tray with a deep border in the center of the table and fill it with oranges, lemons and bay leaves. In the center of the tray stand a glass vase and in this place white, orange and pale yellow flowers Let green foliage hang down the sides of the vase.

SOMETHING WRONG.

But It Wasn't the Patient's Fault That He Couldn't Hear.

A man went to a physician and said: "Doctor, I've got trouble with my right ear. What can you do for me?" The doctor held his watch a foot away from the patient's ear and asked: "Can you hear the tick?" "I can barely hear it."

The physician got out some interest-

ing looking instruments and removed a large lump of wax from the ailing member. "Now, you ought to hear better." he

said and held the watch as before. The man listened. "Don't you hear it better now?"

"No; I don't hear it at all." "That's queer," said the doctor and took another look. "Are you sure you don't hear now?"

"I can hear you, but I can't hear the "Let's try your well ear. Can you hear?

"Never a tick." The doctor looked puzzled. The patient looked alarmed.

"See here, doctor, when you dug me that time you didn't destroy my hearing, did you?"

"I couldn't have done that," said the doctor. "Yet somethin, is certainly wrong. Listen again."

The man listened with the intentness of a suburbanite trying to hear a street car at 11:30 o'clock on a stormy night. But he shook his head at last.

"If you have wrecked ny eardrums, doctor," he began, "I'll" But he did not finish dis threat, for just then the doctor puthis watch to his own ear, grinned fool thly and said; "I guess I forgot to wind the blamed thing last night."-Newa k News.

Notes From the Nursery. Despite the chill wintry blast the two young men decided upon an after-13. noon's fishing from a punt moored in 22. the swift running river.

When they returned their noses were shrammed with cold, but through it all they had a smile—and a creel containing some very small and decidedly immature fish.

The young lady-she was sister to one of the fishermen and the apple of the eye of the other angler-met them as they were wriggling out of their overcoats.

"Ah," she remarked teasingly, "so you've been fishing again despite the cold wind! Let me see. Fish go in schools, don't they?"

"But why do you ask?" asked the angler who was not brother to the lady, but who would have liked to be something else.

"Er-nothing," she replied demurely. "I was only thinking. Er-you've been fishing in the infants' class, haven't you?"-London Telegraph.

Misplaced Precision. "Oh, I just love cake, and it's awfully nice!" cried little Dorothy, regarding her chocolate frosted dessert

with high approval. "You should not say you 'love cake,' ' reproved her mother; "say you 'like' it. And don't say 'awfully;' say 'very.' Don't say 'nice,' but 'good.' And, by the way, the word 'just' should be omitted, and also the 'oh.' Now, my

"I like cake. It is very good," repeated Dorothy. "That is much better." said her

dear, repeat the sentence correctly."

But Dorothy was far from being satisfied. "It sounds as if I was speaking of bread," she said with an air of disgust.-Youth's Companion.

Literally Speaking. The geography class was in session,

and the teacher pointed a finger to the map on the classroom wall. "Here on one hand we have the far stretching country of Russia. Willie." she asked, looking over her pupils and settling on one small boy at the end of the class, "what do we see on the other hand?"

Willie, hopeless with fright, hesitated a moment and then answered: "Warts!"-Short Stories.

Got Off Easy.

Caller-How much for a marriage if-

Town Clerk-One dollar. Caller-I've only got 50 cents. Town Clerk-You're lucky.-Philadelphia Bulletin.

Easiest Way.

"Why did Farringford ever marry the oldest of those Heathcote girls? She's the homeliest one of the five too. I can't understand why he didn't pick out one of the younger and prettier

"He probably preferred to pursue the line of least resistance."-Chicago Record-Herald.

PUMPED HIM DRY.

No Wonder Lincoln Always Had a

Fund of Stories on Hand. Lieutenant David B. Parker, author of "A Chautauqua Boy of 61." sheds some light on the question of where Lincoln got his stock of stories. Lieutenant Parker was in the office of the provost marshal at City Point when en Irishman presented himself, for a pass through the Union lines.

The Irishman was dressed in cordutoys, with hobnailed shoes. He had a fumorous, ruddy face, and his eyes parkled with fun. He handed out a tard, but held on to one corner of it. The card read: "Pass the bearer. -, to General Meagher's brigade in the Army of the Potomac and return to Washington, with free transporta-A. LINCOLN." "All right," said Major Beckwith. "I will give you a pass, but I want you

to tell me how you got the card." The Irishman said: "I had three sons In this country who were in the army. One was killed. The others sent me money to come over and visit them. They told me to come t' Washington and I could git a pass. I came t Washington, but I could git no pass. wint iverywhere. I pushed me way in to that old Turk in th' war department, and I thought for a minute be would put me in prison for gittin' into his room. Then I hung around the White House and went into the garden and talked with the gardener. who was a kind fellah, and told him me story. He said: Come tomorrow morning early, and I will put you at work here. When Mr. Lincoln comes to walk in the garden you can speak to

him.' "So in the mornin' I wint there and fussed wid some plants along the walk, Pretty soon I saw the master comin. As he saw me he stopped and spoke. He said!

" 'New man here?" "I said. 'I am helpin' the gardener little.' And he said:

"'Are you a gardener?' "'I'm just come from Ireland.' said L. "But are you a gardener? said he. "'I am.' said I, but that was a lie. fr I'm a groom.

to me, and I told him my story. 'Come into the office,' he says, 'and I will fix you out.' So the gardener told me what door to go in and what to tell 'im, and I walked past those fellahs as if I owned the place.

"Then he stopped there and talked

"When I come in. Mr. Lincoln said, Have a seat, sir, and warm your feet by the fire.' He sat writin and a man was shovin' papers before him, and he would sign them. He said. You must know lots of Irish stories. and I said:

"'I know some,' and he said: "'All right; talk to me, talk to me!" "Well, I could always talk if I hadn't much to say, but I kep' talkin' and talkin', and a man came in to see 'im on business, and he said, 'Never you mind; sit where you are, and he kep me there. When dinner time came he told the man to take me down and see that I had some dinner. Then I came back again. I stayed with him day afther day. I was given a dinner of turkey and iverything, but there was no whisky. Finally he said. It is time for you to go to the boys, and I will let you go.

me that I had iver heard." Egyptian Justice.

But he had pumped ivery story out of

In ancient Egypt all court business was carried on in writing in order that the decision might not be influenced by gratory or personal appeal. The laws lay before the judges upon a table, and the accuser declared in writing how he had been injured, whereupon the defendant stated in writing what he had to say. Then came a rejoinder from each party to the case, after which the judges deliberated among themselves until they had hit upon the proper legal penalty for the party who had in the meantime been adjudged guilty. This point being reached, the president of the judges touched with an image of Thmei the "Goddess of Truth." the manuscript of the guilty pleader, and the case was over. New York American.

What a Mango Tastes Like, The first thing to do when you reach Ceylon is to eat a mango. Will it be as good as you are told it is? Yes, it is better. First you think it's an apricot, and then you think it's a banana, no, fresher-a peach, a strawberry-and then comes a delicious sharp, fresh aromatic after taste slightly tinged with turpentine, but not bitter. Then you get all the taste at once, and you know that the mango is like nothing else but its own incomparable self. It has all these different tastes at once

Warmth In Snow.

simultaneously.-Metropolitan

Snow is warm by virtue of its light and woolly texture. But it is also warm on account of its whiteness. Had snow been black it would have absorbed the heat of the sun and melted quickly. Instead, it reflects heat, and the reflected heat falls upon bodies above the snow, while the warmth of the earth is preserved beneath it.

The Afternoon Tea.

One of the most delightful ways of entertaining and meeting all social obligations is the afternoon tea, which can be given at comparatively small expense and with great enjoyment. In fact, the afternoon tea is steadily gaining in favor and supplanting the evening reception in popularity.

The invitations for an afternoon tea should be issued a week or ten days in advance of the day set for entertain-ing. Cards are the accepted means of inviting and can be issued in the name of a mother and her daughters or of the wife and husband. The name of the husband appears more frequently as a joint host than in past years.

A specially engraved card should take the form of the following:

MR. AND MRS. JOHN ADAMS AT HOME Wednesday afternoon, December eleventh, from four until seven o'clock.

Thirty-four States avenue. If daughters are to receive this form

MRS. JOHN ADAMS THE MISSES ADAMS AT HOME, etc.

If a very informal tea is to be given your own visiting eard, with your day at home and the hours for receiving. can be posted.

The cards are sent by mail, and when a married couple are invited the cards are addressed to the hasband as well as the wife.

An afternoon tea is an excellent way to introduce a daughter to society. In this case Mrs. Adams would issue cards with her own name and the debutante's name below. If the eldest daughter, the words Miss Adams are an afternoon tea the full name. Mary her mother's. Sometimes the name of both mother and eldest sister are used; then the full name of the second daughter appears below the sister's.

When a guest of honor is the reason for an afternoon tea a specially en graved card would be written as fol-

TO MEET Governor and Mrs. George Gray Mr. and Mrs. John Adams request the pleasure of your company on Friday afternoon, December fifth, from four to seven o'clock. Thirty-four States avenue.

The first form can also be used if an added line at the bottom appears: To meet Governor and Mrs. George Gray.

Do not expect to be entertained all ed in the archives of Puy-de-Dome: day. Let your hostess have a few hours to herself. This can be arranged if you have letters to write or if you take a few walks alone.

Don't leave your room in disorder. and, above all. don't make your visit a big burden to the worker in the house, whether mistress or servant. If the former you should offer to help in the little tasks about the home, and undoubtedly you should care for your own room. If there is a maid you should hang up all clothing and care for your room so as to be no cause for a notice given to the head of the house on account of too much com-

Don't monopolize the best chair or the best place in the room just because you are politely offered it by your host.

Act naturally and don't forget that there are other beings in this world with their rights.

And when you arrive home don't forget to send a little note of thanks to your entertainers.

Office Etiquette.

If a girl is pretty and attractive she is sometimes offered attentions by the men in the office, and some of these they have no business to offer and would never think of doing if they considered her their social equal. Be very sure that no well brought up girl in society would think for a moment of accepting an invitation to lunch alone with a married man or with any man, for that matter, who was almost a stranger to her. She would resent such an invitation as an insult and treat the man accordingly. The working girl, if she values her position, cannot resent such attentions very strongly, but she can positively but firmly refuse them and show the man that she intends to be respected.

Bridge Dinner Invitations. The invitations to a bridge dinner are

usually informal, but they should state clearly the object of the occasion. They may read, "Dear Mrs. Jones-Will not you and Mr. Jones give us the pleasure of seeing you at dinner on

Thursday next at 8 o'clock? If you like, we will play bridge afterward," or something to the same effect. Mr. and Mrs. Jones are thus fairly warned of the fate awaiting them. If they dislike bridge, they need not ac-

cept the invitation. It is best to ask card players only, but this is not always possible.

Card Usage.

At a small reception cards are left as at a large affair. It is not out of place to bid the bostess adien at a small informal tea. At a large one it is not necessary.

Good Breeding. 8

One principal point of good breeding is to suit our behavior to the three several degrees of men-our superiors, our equals and those below us.-Swift.

JOLTED HER DIGNITY.

The Matron, the Mules and a Spectacular Procession.

They tell a story in army circles in Washington, wherein a young matron of much dignity and a string of army mules were the principal actors. It appears that this young woman has quite a regal air. a circumstance that added much to the humor of the situation in which she found herself. Also, it should be added. it is her custom to investigate pretty thoroughly any new phase of life with which she comes in contact. Accordingly, on the occasion of her visit to an army post in the west, she had everything about the post carefully explained to her.

One day, when her host and hostess were out of the house, this young woman thought it well to go to the corral to inspect the army mules. She went among the animals, carefully examining each one.

She happened to wear a costume of very light color that quickly attracted the attention of the animals. which were accustomed. like all army pack mules, to be led by the whitest animal among them. They slowly wobbled their ears as they noticed the unfurled white parasol of their visitor.

The young woman finished her inspection and took her departure. As she left the corral, she heard steps behind her. Glancing back, she saw a mule following her, while all the rest of the animals were falling into line behind their leader.

She was not afraid. Indeed, she deemed fear quite beneath her dignity. But she was startled, to say the least, and quickened her pace. The mule immediately in her rear increased his pace, too, and marched steadily along with his nose just touching the back of the white parasol.

Then it was that the occupants of the long row of officers' quarters were astonished to witness the spectacle of an extremely dignified woman coming up the avenue, at a gait that might be termed a compromise between her digsufficient. If the second daughter nity and a desire to run, with a string makes her bow to society by means of of army mules behind her, the head of each just touching the tail of the one Hall Adams, would be engraved below in front of him. The young woman's steps are said to have exceeded the prescribed army stride by about two feet. Her dignity was decidedly "not on straight." There were about twenty-five mules in the procession .-Youth's Companion.

JUSTICE AND JOLLITY.

They Mixed Punishment and Merriment In the Good Old Days.

The milkman who waters his milk and the grocer who adulterates his butter are not, after all, the products of our modern civilization. These men, it appears, have an ancestry of a respectable antiquity. Witness an t which an antiquary has discover-

"Whosoever shall have sold watered milk, in his mouth shall be set a tube, and into the side tube shall be poured the watered milk till the doctor or barber there present shall assert that the culprit cannot swallow more without being put in danger of his days. Whosoever shall have sold butter containing turnips, stones or any other foreign substance shall be seized and attached in a very curious manner to our pillory of Pontet.

"Then the said butter shall be placed on his head till the sun shall have melted it completely, and in the meantime the children and meaner folk of the villages shall insult him with such outrageous epithets as shall please them, subject to the respect of God and his majesty.

"Whosoever shall have sold evil or rotten eggs shall be seized by the body and exposed in our pillory of Pontet. The said eggs shall be given to the children of the villages, who shall by way of joyful diversion throw them in the face of the culprit, so that all may be full of merriment and laugh-

Justice had a humorous way with it in those good old days.-Paris Cor. London Telegraph.

A Kindness to the Fish. Ethel, who was ten years old, was

studying her geographical reader and learned that fish are placed in brine before they are dried and prepared for sale. After explaining that brine is very strong salt water the teacher asked why the fish were placed in it. Ethel's face was illumined with sudden understanding, and she promptly

"Because they are used to salt water."-Youth's Companion.

Economizing.

"I think I saw your little boy chewing tobacco as I came in the gate." "Yes; that was Johnny."

"Mercy! Do you permit him to

"Well, you see, that was an almost new plug of tobacco his father left when he died, an' it seemed a sin to waste it."-Houston Post.

A Nice Lovable Girl. Jack-The college girl I am engaged to picked me up on grammar before a week had passed over our heads. Tom -You got off light and easy. The college girl I knew corrected my English while I was proposing to her.-Boston Transcript.

Your Blessings. Ef you'll stop courtin' yo' troubles fer awhile mebbe you'll have time ter diskiver dat you've had enough blessin's fer a good sized lifetime. - Atlanta Constitution.

Strong minds suffer without complaining; weak ones complain without suffering.

For the Children

Canary That Loves Music of the Flute.

Many young folks have canary birds as pets and have taught them amusing and cute little tricks. Canaries when gently handled are very amenable to discipline and learn to do in a way some very interesting feats. But a really wonderful little bird is that pos- bitsy pwecious heartums! sessed by Master Cassin, an English boy who plays the flute. When its master plays the bird will fly to him and perch on his fingers, hopping from one to another as the performer manipulates the various keys, all the while accompanying the music with his own sweet little song. Frequently Miss Nanny Cassin plays an accompaniment to her brother's flute on the piano, and then the canary seems filled with ecstasy and warbles its sweetest notes. Truly this is a remarkable musical trio-the two children and the feathered per-

Trick Paper,

Boys who are fond of performing tricks in the parlor when company is being entertained will find the piece of fireproof paper quite a mystery making thing. Take a bit of paper—say a sheet of ordinary note paper—and dip it in a strong solution of alum water. Let it ed a patient for loss of memory? dry and repeat process, again drying it. The Doctor-Oh, yes! I employ a bill After it has been dipped and dried collector quite often.-Chicago News. three or four times press it quickly and cently with a warm iron and place back in the box of stationery. When you decide to show the trick remove They were strolling along one sunny the sheet of paper from the box casually, as though it is the same as the other paper, and hold it over a lighted candle. It will not burn. The trick must broke the contented silence. be performed within a few minutes after the last application of alum water. It can be prepared after the com- things about me to my face, and I've pany has arrived, the boy doing so in no reason to believe you do anything the kitchen secretly and some member else behind my back. But it bucks a of the family slipping it into the box of chap up to be criticised by his friends stationery for him as he talks to the every now and then, you know." company about tricks, explaining what he is about to do, etc.

Don'ts In Handling Books. Don't leave a book lying open face downward. It might split the back.

Don't handle any book before you are sure your hands are clean. Don't lean upon a book. It makes you look lazy, and, besides, the binding

won't stand it. Don't turn down the corners of the leaves to mark your place. Make a

bookmark for this purpose. Don't hold a book near the fire. The binding might not be able to stand the

Don't use a textbook without putting extra covers on it.

Don't increase your library at the expense of anybody else's. Of course we don't mean to say that you mean to keep any book that does not belong to you. You simply "forget." But don't let your memory clog up in this matter.

Birds Rise Early.

The song of the thrush is heard about :30 in the morning. The whistle of the quail is first audible in the woods about 8 o'clock.

The blackcap turns up about 2:30 on a summer's morning.

The blackbird is flooding the wood with melody by 4 o'clock, and the sparrow and tomtit are the laggards in the list of early rising birds.

It is 4:30 before the voices of the robin and wren are heard in the land. You will have heard the chaffinch, the linnet and any number of other hedgerow warblers a good long while before your attention is attacted by the rising song of the lark.

Cruise of the Twenty-six.

Said A to B, "Let's go to C." But B said, "Sail the river D." "I row with E's," cried F, "so please, Take me to shout the naws and G's." All dropped their H's in surprise And got salt water in their I's. To hear a lot of screaming J's Call all the hard C's with the K's They gave an inch, but took an L. And, though it seems too sad to tell, They stole away the printer's M. Brave O went circling after them And found the cockneys with the N's Devouring P's. He took his Q And trilled his R's and rolled them, He hissed the S's, drank his T Beneath a U; sipped O. D. W. And roared, "I'll quickly W. As I Xpect 'tis Y's to do!" cried the crew, "U let us B! We'll end this cruise at Zuyder Z!" -Little Folks.

HIGHER EDUCATION.

She's an algebraic wonder; all her lesure time she spends

Solving problems in equations that are at her fingers' ends. In the higher mathematics she has gained

a college fame, Where her geometric genius added luster to her name,

She is up on trigonometry, and figures are her forte.

For she even knows the age of Ann, according to report. But when playing off a rubber it's a pipe she'll never miss Gurgling sweetly to her partner some in-

spired phrase like this:

"Yes, indeed! I just dote on bridge. It's such a lovely, scientific game! Let's s what's trumps?"

She has read the leading authors, and her

diction is most choice. She can rattle reams from Browning in a cultivated voice.

Never platitude she utters; she's original and bright. And she scorns to use expressions th are commonplace or trite.

But it's safe to bet some evening she'll be gazing at the moon With a chap's that humming marches that are popular in June,

And he'll ask a single question as she slips her hand in his. And she'll whisper in his waistcoat some unique reply like this:

"Oh, John, this is so sudden!"

She is versed in many languages, from Dutch to Corsican. She can quote a dozen poets in the tongue

of quaint Japan. She excels in French and Spanish, and it even has been said She knows all the rules of grammar in a

language that is dead But the day is some time coming when she'll prattle quite offhand In a tongue so weird and complex that no man can understand.

She'll be talking to a bundle 'twixt a rapture squeeze and kiss, And her line of conversation will most likely run like this:

"Dodbessum's itty-bitsy heartums! Didum naughty tolic hurtum's itty tummy? Zere, zere, don't oo cwy, muvver's fty-

Patient-Doctor, have you ever treat-

Spiffin and Miffin were friends. Sunday afternoon in the rear of their respective wives when Spiffins, who was always something of a worrier.

"Look here. old man," said he, "I know you say the most awfully nice

"You want me to criticise you?" asked Miffin, mildly sniffing the clear

and frosty air. "I do," answered Spiffin, throwing out his chest and striking it impressively. "It would do me all the good

in the world." Miffin looked sideways at his friend and then burst out.

"Look here, Spiffin, you're six feet two; I'm five feet four. You can't seriously mean you want my private opinion of you. It can't be done, old chap; can't be done."-Answers.

Didn't Squeal.

Here is a bit of cross examination dug up by a jevial lawyer from his fund of reminiscences:

Q. Now. what were the exact words used by the prisoner when he spoke

A. He said he stole the watch. Q. No, no! He wouldn't have used

the third person. A: But there was no third person;

only the two of us. Q. Then he must have said, "I stole the watch." A. Maybe you did, but he didn't

squeal on you.—New York Globe. None Safe. "You admit, then," inquired the

magistrate severely, "that you stole the pig?" "I suppose I must," said the pris-

"Very well," returned the magistrate, with decision. "There has been a lot of pig stealing going on around here lately, and I am going to make an example of you or none of us will

be safe."-Tit-Bits.

Magazine.

Same Effect. "I wish I belonged to a golf club."

"Oh, it isn't necessary!" "Why so?" "Just walk ten miles or so over hills and ditches and through bushes and every twenty or thirty yards give the pavement or a tree stump a hard whack with your stick and mutter something between your teeth."-Fun

Why He Stayed, Traveling Lecturer For Society (to the remaining listener)-I should like to thank you, sir. for so attentively hearing me to the end of a rather too long speech.

Local Member of Society-Not at all, sir. I'm the second speaker.-Punch.

Continued from page 1. Calvert, the dramatic soprano soloist of the leading choral organizations of Boston and elsewhere, and who has won friends and euthusiastic admirers this

season on her appearance before the Ariington Woman's Club, also at a concert at the Heights. She has a large voice which splendid quality of the voice.

The pianist was Mile. Frieda Gerhard, a brilliant Boston concert player, who opened the concert with Davidoff-Vogrich's entrancing composition "At the Fountain," while her second number was the "Transcription Widmung," by Schumann-Liszt. She was enthusiastically encored. The other assisting talent was Miss Julia F. Currier who added laurels to already won as a public reader, by her rendering of deliciously humorous selections most eleverly and intelligently interpreted. These including 'A half hour at the Bathing Beach." The one act comedy "A Telephone Courtship," was Helene Simon, all from the dramatic department of the N. E. Conservatory. The audience was appreciative and enthusiastic, demanding encores straight through the program. Mme Calvert's program included "When the Heart is Young," Dudley Buck; Magnetic Waltz, Luigi Arditi; "Farewell ye Hills," from the "Maid of Orleans," Tschalkowsky. Mme. "The Last Rose of Summer" for her closeing encore. The young ladies assisting at the concert as ushers were Misses Esther M. Wyman, Edna Frazer, Dora M. Philpott, Miss Lucile True. Perhaps, most gratifying of all. was the exceptional size of the audience. Town Hall was filled in every part and people were even standing, while others had to be refused admission. This was because of the fore-thought of the management and the enterprise the pupils of Crosby school showed in selling the tickets in advance. The large number of young people present are to be thanked for the quiet orderliness observed.

Symmes Arlington Hospital.

The annual meeting of the corporation of the hospital was held in Adelphian Hall, Monday evening, when Earl A. Ryder was chosen clerk and John L. Tyler of wedding gifts. Mr. and Mrs. Smith treasurer of the board of trustees, who will be at home, after May 1st, at the new were elected as follows:-

Geo. G. Allen, Frank Bott, Louis B. Carr, Chas. A. Dennett, Philip A. Hendrick, Francis L. Maguire, Robert W. Pond, John A. Easton, Frank A. Noyes, O. W. Whittemore, Wm. N. Winn, H. A. Phinney, John L. Taylor, James P. Parmenter, Richard D. Greene.

The trustees at this time chose their officers,-H. A. Phinney president, Geo. G. Allen first vice and Louis B. Carr second vice. The work of the year has been a phenominal success and all cannot do less than thank those whose ability and untiring efforts have brought about this result, even in the face of many discouragements. The following statistics will be of interest :-

Babies born, Patient days, Longest stay of patient—days, Average stay of patients—days, Number of operations, Ratio hospital earnings to operating expense (ten months, basis), 72.7 per cent

Average daily cost per patient (ten months' basis).

At a subsequent meeting, the manner of providing for the annual deficit which is inevitable with such an institution, was hands of a committee of five,-John H. Hardy, True Worthy White, H. B. Pierce, the place recently and, it is said, expressed the place recently and it is said, expressed his approval of it and of the undertaking. who brought in, as their unanimous re-

mended being printed and circulated among the citizens of the town :-The Symmes Arlington Hospital has been in successful operation for ten months. During that time it has cared for 239 patients, an average of 24 a month, including 23 babies. It has accomodations for 30 patients, 7 in private rooms, 7 in

port, the following, which they recom-

semi-private or double rooms, and 16 in the wards. The hospital represents, in real estate and equipment, an investment of about \$56,000. Of this, about \$30,000 came from the will of the founder; pearly \$6.000 from gifts, before his death, by the late Edwin S. Farmer; the balance from donations ranging from \$1.00 to \$1500. The plant is now fairly complete; any enlargement may well wait for furth-

er bequests or large gifts. The running expenses for ten months were \$10,555, and the earnings, in fees from patients, \$7,679, leaving as the net running expense \$2.876. This percentage of earnings, about 72 percent, is rather higher than in most hospitals of its class. These figures show a necessity for \$3,500 to meet expenses for the present year. A large sum will make possible a greater amount of charity work.

The hospital needs and deserves the

sympathetic interest of every man, woman and child in the community. That interest should be expressed in one form by a contribution of money in large or small amounts as the circumstances of the giver permits. The trustees would infinitely rather have ten-dollar contributions from five hundred persons, than five hundred-dollar contributions from ten

The corperation has voted to organize a Symmes Hospital Association, whose object shall be to promote the effective usefulness of the hospital, and to ensure its running expenses. Any person, regardless of age, sex or other fact, may become a member of the association on payment of ten dollars as a regular member, five dollars as an associate member, or two hundred and fifty dollars (only income to be used) as a life member. The names of the members will be printed in the Annual Report. We earnestly hope for a prompt and generous response from every comfortably well-to-do family to

After a full discussion, it was voted that the report be accepted, and the temporary committee was made permanent, with full powers to proceed on the lines recommended in their report.

Dr. Charles F. Atwood, of Arling-

cians for Bables, at the Massachusetts A Sudden Death Babies Hospital, which is located at 106 Chestnut avenue, Jamaica Plain.

Smith-Wentworth Wedding.

The picturesque little church at Lexington, known as the Church of Our Redeemer, was never more attractive than was almost too resonant for our hall, but on Saturday afternoon, Jan. 18th, when there was no doubt of her ability or the the marriage of John G. Smith, son of Mrs. James Stuart Smith, and Dorothea, daughter of Mr. and Mrs. William Hali Wentworth, was solemnized there at halfafter three. The bride and groom are resident of Lexington, the latter being quite widely known in the society and club life of the town, but the bride is a more recent comer and the friends of the family are largely Cambridge people and residents in the Metropolitan District. Mr. Smith is a graduate of Dartmouth 1901. The bride is a descendant of Gov. Wentworth of New Hampshire.

The ceremony was performed by Rev. Arthur Boxer Crichton, the fector of the given by Mr. Hugh Towne, Miss Tho Arthur Boxer Crichton, the fector of the Goodrich, Mr. Paul Hackett and Miss Church of Our Redeemer. The church was decorated with Christmas greens and ascension lilles on the altar. Mr. Harry Ingalls, of Boston, was the organist. The bride is blonde and exceedingly pretty. She was in an elegant full bridal toilette and carried lilies of the valley. She was attended by her brother's wife, Mrs. Reginald Andrew Wentworth, of Philadelphia, the matron of honor, who was in Calvert sang an exquisite rendering of pale amber. The bridesmaids' frocks suggested Dresden figurettes. They were Miss Mildred Turnbull Palmer, of Cambridge, and Miss Ruth Jarvis Small, of the First Baptist church of Arlington Newton Highlands. Mr. Joseph Edwin Holmes, of Arlington Heights, Dartmouth 1902, was the best man. The ushers were Mr. Geo. Gallup Clark of Bostos, Hon. Canning Harris Cox of Boston, Mr. Everett Mellen Stevens of Nashua, N. H., Mr. Reginald Andrew Wentworth of Phil-

> The beautiful home of the family on Pel- Dramatic Entertainment. ham road, Lexington, with its roomy hall and spacious reception rooms planned after the old colonial mansion, was the scene of a brilliant reception following the marriage. The handsome furnishings of the house and old family portraits were en-hanced in beauty by the lavish display of Ward roses. The spread was served in the dining room, which divided honors in the attentions of the guests, after meeting the receiving party, with the choice display cement house building on Percy road, Lexington.

Cary Memorial Library.

The Library has received from the estate of Miss Ellen M. Stetson 158 photographs. These are entirely foreign views and will form the nucleus of a collection which the Library hopes to enlarge upon in the future.

Owing to the lack of interest on the part of borrowers the quarterly bulletins of new books will be discontinued. Current additions are posted in the Library and in the railroad stations each month.

The following operas have been added to the music collections of the Library:—"Carmen" by Bizet; "Les contes d'Hoffmann," by Offenbach, and "Tosca," by "Puccini. Many other operas will also be found in the valuable "Goodwin Collection."

Robbins Spring Hotel.

The Boston Post, of Jan. 18, printed the following which is of interest to a wide circle of our readers :-

"Robbins Spring Hotel, located on Robbins road, Arlington, is to be turned into a private school for Catholic girls in the very near future. One of the orders of Catholic teaching sisters, whose main headquaters are at Belgium, and who have a community, it is understood, in the couthwestern part of Massachusetts. discussed and the matter was left in the the southwestern part of Massachusetts, are about ready to pass title to the property. Cardinal O Connell paid a visit to

> The property consists of a main building of four stories, and another building known as "The Nest," both buildings containing 43 chambers. The two buildings are connected with a runway. The first floor of the main building contains a large dining room capable of seating one address of Rev. Leopold A. Nies, given hundred persons, two parlors and an office. About 58,000 feet of land go with the buildings, and it is understood that negotiations are under way for the pur-

chusetts avenue. The location is ideally situated, being at the top of a hill 400 feet above sea level, and from which a superb view of the surcally with the famous spring waters, and pearby is a beautiful pine grove. The only the most improved sanitary applingces are in use. The property is at present looked after by a caretaker, who has been asked to remain until June 1.

Lexington Chapter, D. A. R.

Lexington Chapter, D. A. R., Mrs. E. H. Crosby, regent, held its meeting on Thursday of last week with the vice-regent, Mrs. Boardman Hall, 73 Mountfort street, Boston. Mrs. Miriam Frances Bagley entertained the large audience with 'Scenes in the Revolutionary Days," giving a faithful account of a colonial garden party, a colonial dinner with the representatives of the state, the crown, the church and the colonies as guests, to- ganized classes are taking up these larger gether with pictures of early Boston, and a stirring portrayal of the Battle of Bunker

Deep sympathy has gone out to the family of Mr. and Mrs. Daniel G. Wilkins, of 22 Bartlett avenue, Arlington, in the sudden death of their older daughter, Lillian G. Wilkins, which occurred Jan. 15th, after only four days' illness. Miss Wilkins was a graduate of our High school and of Vasser College, N. Y., from which college she graduated with high honor. She then took up a special course at Simmons College. Although her parents were in a position to give Miss Wilkins all the comforts, as well as many luxuries of life, she preferred to give others the benefit of her education, and she entered the teacher's profession, first accepting a position in the High school at Plymouth, N. H., then a similar one at Beverly, Mass., and at the time of her death was teaching in a commerical college at Mt. Vernon,

Her whole-hearted and genuine nature won the confidence of all who came in touch with Miss Wilkins and her cherry, sunny disposition made her aj oy, inot only in the nome circle, where the ties were very closely woven, but among the friends and neighbors, with whom she was a favorite.

Miss Wilkins had been attending a coi-Il, and had been the life of the company. She was removed to a hospital and her tamily notified at once, as it was realized the case was a serious one from the first, and members of the family were with her when the end came. The funeral was held Saturday, Jan 18, at the home of the lecture will be illustrated by numerous large and members of the family were with her held Saturday, Jan. 18, at the home of the parents, and a beautiful service, and one full of comfort, was conducted by Rev. of the First Baptist church of Arlington and pastor of the deceased, who was assisted by the present pastor of the Baptist church, Dr. Nathan E. Wood. There were many beautiful flowers. The burial was in Mt. Pleasant cemetery, Dr. Watson officiating at the grave.

The vestry of the Unitarian church, was filled Friday evening of last week, with an audience that fully appreciated the dramatic performances presented by a group of young people connected with the First Parish. The drama was pre-sented under the direction of a committee; from the Senior and Junior Alliances of the church, composed of Miss Veda Damon, (chairman), Mrs. Peter Schwamb, Miss Clara Livingstone, Mabel Barnes and Eleanor Homer. Miss Damon staged and coached the play with a good deal of discernment, even to the small det ills, and the stage setting was decidedly pleasing, especially in the last two acts, when the scenes were laid in a New York apartment. Miss Marion Buttrick prompter, and Master Theodore Schwamb, the stage hand. Miss Mabel Barnes made the attractive posters placed in the several store windows to advertise the play

The drama was in three acts, and was 'A Kettle of Fish.' It recited the dilemas in which the family of Frederic Salmon found themselves because of Mrs. Salmon's desire for the members of her family to become distinguished. Of course it comes out all right, and the play-Miss Eunice Clare sang soprano solos, accompanied by Mrs. James A. Bailey, Jr., that were appreciated by her audience. The following was the cast:-

Frederic Salmon, a country gentleman, Mrs. Salmon, his better half, Paul Turbot, their son-in-law, Gardner Porter. Maud, their daughter, married to Paul, Rosa, unmarried daughter of the Salmons, Clara Livingstone. Herbert Grayling, prospecting for love, Walter Hutchinson Dr. Pollock, prospecting for himself, Herbert Buttrick. bignor Pescatore, prospecting for another, Amerigo Chaves. Philip Dunbar. Crab, a post-man,

The organized Bible class has come to members, over 90 per cent are the product gave great pleasure to all present by his of their Sunday school. This is as it tenor solos. should be.

The organized Bible Class will abide because of its service to the man who is in sympathy with the church but not ready ning, of this week, at headquarters. The to connect himself with it. As he becomes installing officer was Past Commander familiar with the spirit of the class, he Alfred H. Knowles, of Francis Gould often sees that he had misjudged the Post 36, of Arlington, who was attended church and is lead to confess Christ. It by members of that Post who joined in will abide because whether problems are in the material, social or political world, in their essence, all problems are moral orable one. The officers installed were and spiritual.

Christ wishes his spirit infused into the courts of justice until the thought of justice will not be 'How can society get laws, but 'How can we save him?' Orproblems. It is not strange that men and women of the more serious type are flocking to them.

As a few practical suggestions I say: The organized class should be positively presentatives from Bunker Hill, John but the great problems of religion. I ty, Old Shirley, Ann Adams Tufts chapters, D. A. R., and the Hannah Weston Chapter, D. A. R., of Maine. the life of Mohammed. Some are taking up purely economical or socialogical subjects without noting particularly their religious Mrs. Fassett, of New York, presided at bearing. Study the Word. You will the tea table during the social hour. The find that it contains principles bearing

Do not confine class activites to simply book lore. Let them try to apply the ton, and Dr. H. C. Valentine, of Lexing-ton, are on the Board of Visiting Physi not played the part she ought in the great land, for with the opening of the Panama

reforms of the age. Her pulpits have always sounded true but her members have often been bewildered as to what to do. Combined organized classes may make themselves felt in any effort that is worth while. More than one great crusade has succeeded these days because the organized forces of the church were behind

A. B. C. Notes

Bowling events of last week added nothing to the fame of home teams, but in the Boston Pin League A. B. C. still holds a strong lead in games won (33 won to 11 lost), but in pinfall

The best the Arlington could do in the game this week was to split even with the Colonial, the score being: A. B. C. 582, 516, 561—1659; Colonial 563, 541, 560—1664. Atkins captured the high three-string mark for the season, with his 379. The figures show how venly matched were the bowlers.

In the Newton League now well started, A. B. C. heads the list with 5 games won to 1 lost and with a total pin fall well in advance of the

Mr. Homer B. Hulbert will speak on the "Passing of Korea," at a "Smoker" at the Boat Club, next Tuesday evening, Jan. 28th. Mr. Hulbert was for twenty years, in the employ of the Korean government and a personal advisor of the Emperor, who was forced to abege function the evening she was taking dicate in 1907. In many of the stirring events which have attracted the attention of the lecture will be illustrated by numerous lantern slides, some of them of a very unusual character, and will make a very entertaining

> Next Monday, Jan. 27th, the Winthrop Yacht club will bowl at the A. B. C, in the Amateur Boston Pin League.

> Next Wednesday, January 29th, the New-owne club bowls at the Boat Club in the Newton League.

This next week will be a very active one at the club house with all these special events in conjunction with the house tourament bowling

In the game bowled on Wednesday evening, A. B. C. team won the odd string and in totals in the Boston League series from the North Gate crew. Score, A. B. C. 476, 489, 517,—1484; North Gate, 521, 470, 449,—1440.

The Boat Club rejoices in a handsome and convenient new bulletin board, which was the generous gift of Messrs. E. J. Davis & Son, the proprietors of the wood-working establishment which occupies the factory formerly the property of the Ww. T. Wood Ice Tool Manf. Co. The bulletin board is made of quartered oak and is skilfully hand carved.

Lexington G. A. R. Installations.

Jan. 17 was a memorable date in the annals of W. R. C. No. 97, of Lexington, when the officers of the Corps were installed under circumstances which proved of more than ordinary interest because of the unusal number present of prominent officers of the Mass. Dept. W. R. C., to distinguish the ceremonies. Mrs. Ella R. Jones, who has served the Corps so Clement Hale, his adopted son, studying for Mr. Riley. faithfully, this being her third term, and her officers are deserving the most sincere congratulations on the success attending all the events of the afternoon and evening. The Corps entertained so hospiting of the different characters, by the ably and in such large numbers that Grand of the different characters, by the ably and in such large numbers that Grand Mr. Maw, a solicitor. Mr. Byoung people, gave their friends a most Army Hall was too small and the affair Mr. Bulger, hair dresser and wigmaker.

> the list of officers these ladies were presented with beautifully decorated dishes of Austrian glass ware, and Mrs. Prest. Jones with a lovely bouquet of violets. A social time ensued till the supper hour. The following is the list of officers installed :-

President,—Ella R. Jones.
Senior-Vice,—Chastine Macdonald.
Junior-Vice,—Lizzie Fitch.
Secretary,—Mattie Gurney. Secretary, —Mattie Gurney.

canal, it is expected that this country will inaugurate a big South American trade, in which these states will hope to share.

Sweet Lavender"

This old fashioned three act domestic drama, by Pinero, was given under the suspices of the Old Belfry Club, of Lexington, in its hall, Wednesday evening, before an audience crowding the hall in very part. The audience was interested to see how a cast that had not appeared on the stage boards before, saving three exceptions, would comport themselves in the comedy which makes little appeal in its own behalf to a modern audience of theatre goers. The most natural impersonation was that of Miss Bertha Hutchinson and her make up was exceedingly well done. Mr. Preston is to be complimented on his comedy role as well as Mr. Daniel B. Lewis for his characterization. Miss Nichols made an intelligent study of her part, which was about all one could do with such a role, and her brother, Mr. Ernest Nichols, was particularly good in his "intoxicated moods." The other parts told the story of the comedy in an entertaining way and there was not a little laughter and applause as the humorous side of the play was enacted. The cast was as follows :-

Mr. Geoffrey Wedderburn, of Wedderburn, Green & Hoskett, Bankers, Barnchester. the Bar.
Dr. Delaney, a fashionable physician.
Mr. Mulliken.

Mr. Nichols. Dick Phenyl, a barrister. Horace Bream, a young American. Mr. Ryder.

Dept. President, of Lynn, assisted by Mrs. Dorcas Lyman, of Faneuil, officiating. After the inducting into office of Lavender, her daughter.

Miss Vickery. Ruth Rolt, housekeeper and laundress at 3
Brain Court, Temple.

Lavender, her daughter.

Miss Vickery.

Miss Nichols.

Lavender, her daughter. The stage setting, as usual, was in

every way adequate and most effective. There was but one scene in the three acts, which, of course, simplified the stage business, which, however, was one of the most successful features of the drama. The drama was presented under the direction and coaching of Mr. Robert Burnham, who has a reputation for this class of stage work.
